<b>Title</b>	Public Health Annual Report 2017
<b>Status</b>	Recommendations Approved
<b>Record of Decision</b>	That the publication of the Public Health Annual Report be approved.
<b>Options Considered</b>	Members could decide not to actively promote the annual public health report however it is a statutory responsibility of the local authority to publish the annual report. The publishing of the report provides an opportunity for the Council to identify the base line for health outcomes for the people of Wolverhampton. The report also highlights evidence on specific health outcomes for the area and consequently identifies the areas of preventive action which need to be focused on during the forthcoming year.
<b>Reasons for Decision</b>	<p>It is a statutory requirement that all top tier local authorities produce an independent report from their designated chief officer for public health on the health of the local population. The report fulfils this requirement.</p> <p>The annual report highlights the indicators where improvements can be made to impact on the health and wellbeing outcomes of preventable conditions within the current population of the City of Wolverhampton. The rate of these conditions will escalate if nothing is done to halt poor inter-generational lifestyle choices and will continue to have a high impact on health and social care resources.</p>
