

**Cute Coffee Lounge - 72b School Rd**

Hi Rob,

Environmental Health Commercial would like to make representations to this application on the grounds that insufficient information has been provided to satisfactorily address the Licensing Objectives of Prevention of Public Nuisance. We are working with the applicant and other Responsible Authorities to try and address our concerns through mediation and agree joint proposed conditions prior to the application hearing at Licensing Sub – Committee, subject to member's approval.

The nature of the premises extension by such hours we believe to be unreasonable as in such close proximity to a number of residential properties. In addition to the potential for a public nuisance from the amplified sounds at such hours proposed on the application, we have great concern for the disturbance from general behaviour as people vacate from the premises when such background noise levels are dramatically low.

Regards,

Charlotte Rose  
District Environmental Health Officer
