2022-2025 Pharmaceutical Needs Assessment (PNA): Supplementary Statement

This supplementary statement serves as an update to the original PNA published on the 23rd September 2022, following changes to pharmaceutical provision since the publication of the PNA. Due to the scale of changes, it was deemed that producing another PNA would be a disproportionate response to these changes, given a full update of the PNA is due in 2025.
