Recommendations for noting:

The Committee is recommended to note:

1. The quarterly accounts for the period ending 31 December 2017, which show that:
 - the value of West Midlands Pension Fund at this date was £15.5 billion, an increase of £1.2 billion from 31 March 2017;
 - the value of West Midlands ITA Pension Fund at this date was £512.1 million, an increase of £9.2 million from 31 March 2017.
2. The forecast outturn against operating budgets as at the end of December 2017, which is an under spend of £10.2 million;

1.0 Purpose

- 1.1 The purpose of this report is to update the Committee on the forecast outturn for the year against operating budgets and quarterly accounts as at the end of December 2017.
- 1.2 The operating budgets were approved by the Committee on 22 March 2017 as part of the Service Plan 2017-2022, a full copy of which can be found on the Fund's website: www.wmpfonline.com.

2.0 Forecast Outturn against Operating Budget 2017/18

- 2.1 The following table sets out the forecast outturn compared with the Fund's operating budget as at the end of the first quarter.

- 2.2 Forecasts have been made using a combination of reviewing spend to date and considering plans for the remainder of the financial year. A prudent approach has been taken in forecasting the cost of those plans, and the figures set out above are therefore likely to be subject to change by year-end.

- 2.3 The forecast under spend on employee costs (£620,000) is due to posts being vacant, or in the process of being recruited, during the year.
- 2.4 As at the end of December 2017, investment management costs are forecast to be £9.3 million under budget, reflecting the on-going work to streamline portfolio management arrangements. Since these are heavily influenced by market movements and investment performance, this is particularly subject to change during the remainder of the year.
- 2.5 The majority of internal investment management costs and fees and other costs are deducted at source by fund managers, total investment management costs for the main fund are forecast to be £63.3 million, as follows:

| | Actual 2016/17 £000 | Forecast 2017/18 £000 |
|---|------------------------|--------------------------|
| External Costs: | | |
| - Invoiced | 6,142 | 8,640 |
| - Deducted at Source | 57,358 | 52,249 |
| Total External Investment Management Costs | 63,500 | 60,889 |
| Internal Investment Management Costs | 2,217 | 2,014 |
| Total Investment Management Costs | 65,717 | 62,903 |

- 2.6 Cost-per-member is a critical measure for the Fund of its cost-effectiveness. The following table sets out the forecast cost-per-member compared to budget, using the three standard headings specified by CIPFA: administration, oversight and governance, and investment management. These figures are stated for West Midlands Pension Fund only, reflecting the £150,000 recharge to the ITA Fund. The forecast cost-per-member is lower than budgeted for each of the three headings.

| | 2016/17 Actual | 2017/18 Budget | 2017/18 Forecast |
|---|---------------------------|---------------------------|-----------------------------|
| Total Administration Costs (£000) | 3,303 | 4,660 | 4,117 |
| Administration Cost per Member (£) | 10.93 | 15.29 | 13.43 |

** As estimated for purpose of 2017/18 budget preparation.

*** As at 31 December 2017

- 2.7 The Fund, like all public-sector bodies, continues to be cost-conscious, and keeps its operating costs and procedures under continuous review.
- 2.8 During the 2016/17 financial year and the current year to date, the Fund has incurred costs on the set-up of LGPS Central Limited. These costs are being shared, on an equal-eighths basis, with the other seven partner funds.
- 2.9 West Midlands' share of this spend to date is £307,000, and its share of the total budget is £486,000. This expenditure has been capitalised as investment in the company, and has not impacted on the operating budget. No costs are chargeable to the ITA Fund, as it will not be a share-holder.
- 2.10 Strong budget management arrangements are in place, including monthly reporting to the LGPS Central Programme Board. The forecast budget requirement is kept under continuous review, with any changes requiring the approval of the Programme Board.

3.0 Quarterly Accounts – West Midlands Pension Fund

- 3.1 Appendix A provides a Fund Account for the third quarter ending 31 December 2017, and a Net Assets Statement as at that date.

- 3.2 The Net Assets Statement provides a value for the Fund at 31 December 2017 of £15.5 billion. This is an increase of £1.2 billion from the 31 March 2017 value.
- 3.3 These quarterly accounts have been prepared the key assumptions, which are set out below:
- Past Service Deficit Contributions for the year have been recognised in full in the first quarter;
 - Where employers have made up-front payments for the whole year, and in some cases for future years, these have been recognised in full in the first quarter (the combined effect of these two points is that the contributions income shown in the Fund Account for the first six months of the year is significantly more than one half of the total amount that will be due for the year);
 - Management expenses have been calculated on an accruals basis, being equal to one half of the forecast net cost for the year;
 - Investment income has been calculated based on income due for the period.
- 3.4 The main reason for the increase in the value of the Fund for the year so far is contributions receivable, amounting to £985.7 million for the year so far. In addition, gains in the value of investment assets have increased the value of the Fund by £971.5 million. Together, net of income and benefits paid, these have led to a £1.2 billion increase in asset value over the first six months of the year.

4.0 Quarterly Accounts – West Midlands ITA Pension Fund

- 4.1 Appendix B provides a Fund Account for the quarter ending 31 December 2017, and a Net Assets Statement as at that date.
- 4.2 The Net Assets Statement provides a value for the Fund at 31 December 2017 of £512.1 million. This is an increase of £9.2 million from the 31 March 2017 value.
- 4.3 The main reason for the increase in the value of the Fund for the year so far is gains in the value of investment assets (£24.1 million).
