Morning Prabhjot.

I am not in a position to grant this application based on the standard and quality of the application form itself.

This matter was discussed at the RAF meeting last week and your department are aware that the applicant has been trading without a license for the last 2 years!

The content of the form under licensing objectives is not answered adequately and needs some work to say the least.

We would have to **object** on the basis that NONE of the licensing objectives are being met and that the applicant doesn't seem to have ANY knowledge of the requirements of what is expected of a competent DPS.

Please take this email as our Formal Objection.

Kelly

*Kind Regards*

**Police Constable 6820 Kelly Fellows-Hale**
