**Subject:** RE: WMP Representations for The Hangar, Pountney Street, WV2 4HZ - PRE1370

Regarding the application for a premises licence for the above premises.

Currently the application has insufficient information to demonstrate that the licensing objectives of Prevention of Crime and Disorder, Public Nuisance and Public Safety are adequately promoted.

The proposed PLH is unsuitable, due to previously having a licence revoked.

The roller shutter doors are proposed to be closed to prevent public nuisance, however are currently required to be open due to being used as fire exits.

There are mention of policies and procedures which are not attached to the licence application.

Some of these matters have been addressed verbally with the applicant, however not all.

Due to these reasons West Mids Police make representation to the application

The representation will not be withdrawn until the Police are satisfied that all the objectives will be adequately promoted in respect of the application.

Regards,

Steph Reynolds
