### **Meeting on Thursday 3 February 2022**

Areas for consideration and discussion:

- What are the barriers when trying to bid for public sector contacts (e.g., are Council insurance levels a barrier)?
- Are businesses aware of what support is available in Wolverhampton in relation to bidding for contracts?
- What support to you think is needed that is not currently available?
- How do businesses identify upcoming contract opportunities in the City?
- How do you think contracts and contract management could be improved to add real value to the City and make real changes?
- What do you think would encourage businesses to bring their services to Wolverhampton?
- How do you approach co-production in relation to service provision?
