THE AIM OF THIS ENGAGEMENT STRATEGY

Raising Awareness and Aiding Understanding

The Customer Engagement Strategy sets out how we will engage, consult and involve our customers as we seek to put our customers at the heart of everything we do. In line with the Fund's objectives, the Customer Engagement Strategy plays a key role in ensuring the Fund drives continuous improvement and develops working practices, systems and processes which are informed and prioritised according to the needs of our customers.

The strategy aims to inform our customers of the opportunities for them to engage and contribute towards the way we develop and deliver our services whilst emphasising that engagement sessions are not just about delivering information, but about enabling members and employers to work with the Fund to shape our services to be fit for the future.

We measure effectiveness through frequent surveys, feedback and internal reports to ensure we're improving customer satisfaction, engagement and relationships, and creating efficiencies within ongoing development and digital transformation.

ENSURING THE ONGOING DEVELOPMENT OF OUR SERVICES

Ultimately, engaging with our customers helps the Fund to understand customer feedback, review and monitor service effectiveness, analyse performance, and develop and deliver a service that is focused on the requirements of our customers.

By taking the time to engage with our customers about the services we deliver, we aim to fully understand the use of our services and our customers' expectations in order to keep up to date with customer experience and changing needs. The Fund regularly reviews our performance to help maintain, build and develop partnerships with our stakeholders, utilising opportunities for service improvements and efficiency.

Effective customer engagement ensures the Fund is able to support our customers through significant events, equipping them with the knowledge to make decisions.

Our success is dependent on building and maintaining good working relationships with our employers and scheme members, and this strategy aims to ensure customer focus is embedded in Fund operations and exhibited in our behaviours.

Complaints

If something has gone wrong, we want to know so that we can put it right as quickly as we can for you. Where possible, the Fund will always try to resolve your complaint at the first point of contact. There will be times where we are unable to resolve a complaint raised at the first point of contact and where this occurs, the formal complaints process will begin, and the matter will be formally logged as a complaint.

The Fund has a two-stage complaints process:

Internal Dispute Resolution Procedure (IDRP)

Where there is a pension dispute, the Fund has implemented a two-stage process in line with the Pension Regulator's Code of Practice.

The first stage requires members to complain to whoever they feel is at fault for a first instance decision. This might be their employer or the Fund itself. If the member is not satisfied with the outcome, or they haven't had a response within a reasonable time period, they may progress their dispute to stage two which involves the Fund's review of the decision.

Members wishing to use these processes must complete Form A which can be downloaded at <http://www.wmpfonline.com/article/4724/Dispute-Resolution>.

A summary of the process followed by an employer and the Fund can be found using the following links:

[Decision of an employer](#)
[Decision of the Fund](#)

The full process is detailed in the following document: [Internal Dispute Resolution Procedure](#)

The Customer Engagement Strategy is subject to the Fund's programme of continual review and development to ensure the activities and opportunities we present achieve our aims and objectives. To measure this success, the Fund will focus on the following outputs:

- Improving our communication and accessibility of online services.
- Maintaining and improving Fund performance for processing member benefits.
- Reduction in outstanding data queries for employers.
- Improvement in timely and accurate submission of information to the Fund and to increase provision of Annual Benefit Statement and Deferred Benefit Statement to members.

Through our engagement activities, we report back on the successes or challenges of our engagement which have led to service development and improvements, reporting on a quarterly basis to our Pensions Committee our key performance indicators (KPIs) on customer service.

SERVICE DEVELOPMENTS AND IMPROVEMENTS

By taking the time to review customer analytics and engage with our customers about the services we deliver, we aim to understand the use of our services and our customers' expectations, both now and in the future. This provides us with regular opportunities to review our services and drive service improvements.

Listening and responding to our customer needs and expectations

Using customer analytics to influence business improvements and enhance the customer experience

Pensions can be a complicated subject and our customers may need support at different stages of their customer journey. We want to improve outcomes for customers and make interacting with us as easy as possible. To assist with this, we have:

- increased capacity on our front-line services, allowing us to engage with more of our customers during 2018 and beyond;
- increased the number of member educational events across the West Midlands, making support more accessible to members;
- increased the number of employer coaching events to support our scheme employers in their pension administration;
- improved various Fund letters to help members understand the options available to them; and
- developed self-service platforms to enable our customers to access information more readily and take responsibility for their own customer journey.

Our feedback and analytics suggest that increasing numbers of customers are wanting to use digital services to manage their pension benefits. As a result, a number of improvements are to be made to expand upon our customer offering, such as:

- a new and improved member Pensions Portal, allowing members to be 'Pension Smart' and keep track of their pension benefits;
- offering videos and webinars as a tool for pension education;
- improving our employer web pages to make more information readily available and improve self-service options; and
- implementing increased employer self-service and rolling out a new and improved employer Pensions Portal

Work is also underway to improve our member web pages, which will provide clear and concise information to support our customers throughout their customer journey.

Looking ahead, we feel that it's important to better understand our customers' journey through the various interactions they may have with us as a basis for further developments. To help with this, we are rolling out a number of surveys which invite customers to share their experience following a specific Fund interaction. Our success is dependent on fostering good working relationships with our customers, and this strategy aims to ensure customer focus is embedded in Fund operations.
