	Email	Simon.taylor2@wolverhampton.gov.uk
Report to be/has been considered by	Rachel Brothwood	Director of Pensions
	Tel	01902 551715
	Email	Rachel.brothwood@wolverhampton.gov.uk

Recommendation for noting:

Committee is asked to note:

1. The engagement activity and informed service development.

1.0 Purpose

- 1.1 To provide Committee with an update of the Fund's customer engagement activity from 1st April 2019 to 30th June 2019, in line with its Customer Engagement Strategy.

2.0 Background

- 2.1 One of the Fund's key objectives is to engage to improve outcomes for our customers. In line with this objective, the Fund has published, and keeps under review a Customer Engagement Strategy to review satisfaction and help inform improvements to its pension services.
- 2.2 This report summarises engagement activity and the service development this is driving.

3.0 Engagement within this reporting period

- 3.1 The Fund has undertaken a wide range of proactive engagement with our customers and other stakeholders during the period 1st April 2019 to 30 June 2019.
- 3.2 In total, the Member Services team has assisted **1,323** members with pension related information during the period. This engagement includes presentations delivered to **356** attendees held at a variety of different employers, including district councils, universities, schools and other admitted bodies.
- 3.3 The feedback from these presentations concluded that **43%** of the members rated them as excellent, **44%** as very good, **11%** as good and **2%** as satisfactory. Further detail on the feedback can be found in appendix A with a summary of the scope of these events covered in appendix B.
- 3.4 During this reporting period the team provided **9** satellite support events for hard to reach members who may not normally be able to access our services, due to the nature of their work.
- 3.5 Further support has also been provided to members either through drop in sessions or scheduled one to one support sessions to **967** members on an individual basis.
- 3.6 The Fund works in partnership with local HR teams at our larger employer's request, to educate new starters of the benefits of the LGPS and provide support to members who are thinking about retirement. During this quarter we have delivered **4** LGPS induction sessions, which were delivered to **64** attendees, **1** pre-retirement presentation and **1** pre-retirement workshop event which were attended by **30** members.
- 3.7 On the 17 May the team piloted a new event called "Tea & Teach". This event was an output of our pensioner engagement forum based on feedback received and provided another opportunity to engage with our Pensioner membership. Due to the success of the pilot event, "Tea & Teach" will be rolled-out over the West Midlands Region throughout 2020.

- 3.8 Comparison of the six months 1 January 2019 – 30 June 2019 to the corresponding period last year shows that member attendance levels for events provided by the Fund have remained broadly even, with just over 3,100 during the first six months of the calendar year. Whilst overall levels are similar, there has been a transition in the events delivered, in response to service change, member feedback and change in member contact. Of note are the following:
- Following a change in Prudential's business model, removing the delivery of presentations, the Fund has incorporated its own AVC education events.
 - New events include Tea & Teach and the Pre-Retirement Workshop.
 - Registrations for My Pensions Portal have increased from 62,000 in 2018 to 82,780 at the same point in 2019 (and a 10% increase on the previous quarter).
- 3.9 As the Fund evolves its service to reach more members, we have increased our digital footprint via initiatives such as webinars and online video shorts. Going forward we will monitor the effectiveness of this method of engagement both in terms of volume and via structured feedback, which will be summarised for Committee's information.
- 4.0 Employer coaching**
- 4.1 One employer coaching session was held during the reporting period on 5th June 2019 which was based around roles and responsibilities in line with the Pensions Administration Strategy (PAS). In total there were 10 attendees and feedback was positive with all attendees rating the session as good or excellent.
- 4.2 Following feedback received, the Employer Services team held 'short-bite' sessions after the Mid-Year Review in May, where employers were invited to drop in and speak with a member of the team directly on issues relating to the administration of LGPS and regulation queries. Ten employers took up this opportunity.
- 5.0 Employer Peer Group**
- 5.1 Aligned to the Fund's objective to partner for success, the Fund holds an Employer Peer Group every three months.
- 5.2 The Employer Peer Group provides the Fund with valuable feedback and allows the Fund to trial new initiatives, procedures and ideas, before implementation, to assist both member processing efficiencies and employer performance.
- 5.3 The most recent Employer Peer Group meeting held on 15th May 2019 was the first for 2019/20 incorporating the new attendees, issues covered included:
- Member and Employer Services support including webinar demonstrations and an overview of the new 'Pre-retirement workshops' due to be rolled out.
 - Current ongoing consultations including the proposed implementation of the £95k Exit Cap.

- 2019 actuarial valuation including the employer health check for comment before issue to all employers.
- Future work programme and meeting agenda.

5.4 A number of suggestions were put forward and feedback given by the group with respect to the above which will be considered by the Fund in future developments of these items.

5.5 The group was also asked to spend some time looking over the Fund's website with feedback to be provided either before or at the next meeting in September, to help with ongoing review to improve and increase the ability for employers and members to self-serve.

6.0 Employer health check

6.1 Aligned to the 2019 actuarial valuation, the Fund recently issued an 'Annual Health Check' which requested employers check or confirm details such as accuracy of active member lists held by the Fund, membership profile (active, deferred and pensioner splits) and confirmation of approved users for access to the Employer Web Portal.

6.2 The benefits of this health check, which is intended to be revisited on an annual basis, includes validating and ensuring the accuracy of data held (which consequently could have an impact on contributions in a valuation year), verifying the access held by an organisation to the Employer Web Portal which is vital for data security purposes and ensuring the Fund holds correct and appropriate contact details for each employer.

6.3 The Fund received a positive level of engagement from these health check with 68% (452) of employers responding.

6.4 As a result of the information received from the 2019 health check, the following improvements have been made:

- A reduction in the number of queries referred to employers with respect to zero pay entries on monthly files.
- A reduction in unconfirmed leavers, having received notification from employers, enabling the Fund to flag certain members as a leaver. This will significantly improve the percentage of active member benefit statements, with greater certainty of eligible members.
- Employer Web Portal account revocations and reactivations, enhancing data security.

7.0 Monthly data collection

7.1 Following the end of the 2018/19 year and in advance of the first 2019 benefit statement production, Employer Services has been targeting those employers who have monthly data files outstanding. At the time of compiling this report, 81 files across 12 employers remain outstanding in respect of 2018/19 (from a total of 8024 expected). Additional support is being given to those employers who have only recently been admitted into the Fund (including some where backdating is required).

7.2 The Fund previously communicated to employers its intention to review and reflect on the implementation of monthly data collection (MDC). This review is well under way and there have been several key appointments within the Fund to help underpin this development.

7.3 A Fund wide programme of improvement is underway to identify and enhance the MDC journey both for Employers and the Fund. Whilst the Fund is keen to limit employer changes to MDC, a number of key elements of the process are being reviewed and may result in some changes to the process, at both the Fund and Employer end. These changes are designed with both data quality improvement and employer ease of processing at the forefront. Further consultations regarding this will be undertaken before any planned changes are introduced to the existing process.

8.0 Overall customer satisfaction

8.1 Customer satisfaction surveys

8.1.1 The rolling online customer survey available through the Fund's website continues to provide ongoing feedback and early notice of any common issues or concerns.

8.1.2 Alongside this, the Fund encourages feedback using a range of different channels, such as surveys issued following member, customer and trustee events. Within all our external surveys, two 'core' questions are included which measure overall customer satisfaction. The overall satisfaction over this period has been noted as 98.2%.

8.1.3 The number of 'post event' customer satisfaction surveys are expanding, with surveys being piloted to new joiners, deferred retirees and to members who have transferred in or out of the scheme. The results of these surveys should provide valuable insight into customer experience, which enables the Fund to build upon any gaps highlighted through our service delivery.

8.1.4 As a result of the feedback received so far, the Fund has been able to improve several aspects of service delivery from self-service opportunities to modifying communications and training for our internal teams.

9.0 Communications and publications

9.1 Members continue to view the Funds video shorts, which are available through the website and have recently been updated to comply with the changes in factors/reduction from April 2019. The videos assist members with registration for Pensions Portal, provide an overview of the LGPS, promote the 50:50 section and explain the annual benefit statements. Since the videos were published **4,316** members have accessed and viewed the videos. This is a **30%** increase since the June Customer Engagement Update covering 1 January to 31 March 2019 activity.

- 9.2 During the month of June, the Fund provided deferred members with their annual benefit statement. As part of the Fund's commitment to encourage members to engage with their benefits, the Fund issued emails to members to notify them that benefit statements are available on the Pensions Portal. The Fund sent emails to **33,096** members for whom email addresses were held, **60%** of these members opened and read the email equating to **15,227** members.
- 9.3 The 2019 summer edition of the employer brief was collated during this period and circulated to all employers in August. This edition contained articles and important information on the following topical issues and industry updates:
- 2019 Actuarial valuation: Important Information and Updates.
 - Mid-Year review feedback.
 - MHCLG consultations: Changes to the Valuation Cycle and Management of Employer Risk.
 - Advice on how to reduce the number of queries raised by the Fund with respect to employer data.

10.0 Pension roadshows

- 10.1 During this reporting period the team delivered Roadshows at depot locations across the West Midlands region. The team delivered **2** roadshow events which saw **108** members board the roadshow bus and seek support with their pension benefits.
- 10.2 The team also delivered a series of roadshows to Local Authority schools across the Coventry area, this saw **6** roadshows delivered with **119** members coming on board.

11.0 Support and communication on the horizon over the next quarter

- 11.1 The Fund has or will be providing various support and communication to its customers and stakeholders in the near future, which will be covered in future Committee reports. This range of activity extends from working with LGA and other funds, the development of new methods of communication to engage with our membership and upcoming support which is due to be delivered to members.
- 11.2 The West Midlands Pension Fund is one of three LGPS Funds working with the LGA and "My Landscape" to prepare videos designed at increasing LGPS member engagement at national level. These should be complete by the end of year and rolled out to all Funds to use.
- 11.3 The West Midlands Pension Fund is required to issue any members who have breached annual allowance limits a pension saving statement by the 5 October 2019. The Member Services Team is planning to provide pension tax support to these members by explaining what pension savings are and the implications and options if limits are exceeded. The team will be offering Pension Tax presentations to employers from mid-November onwards.

- 11.4 The Member Service Team is due to deliver the annual Pension Roadshow events across the district councils between the 9th and 27th September.
- 11.5 The programme of employer performance feedback continues with focus on the larger employers where areas for improvement have been identified. Regular progress calls have been scheduled with two employers identified as requiring extra support in order to achieve an improved performance position with respect to data submission timeliness and quality. These calls supplement the initial face to face meetings that took place within the period where targets for improvement were established.
- 11.6 A special edition of the Employer Brief is currently being drafted focusing specifically on the 2019 Actuarial Valuation. The update will be based broadly around the consultation sessions given during June and July, the details of which are contained within the separate valuation report provided.

12.0 Mid-Year Review (MYR) 2019

- 12.1 The Fund held its MYR 2019 meeting at the Molineux Stadium on 3rd July 2019. The event was well attended by employers, Pensions Committee and Pensions Board representatives. This year the event included some interactive mobile phone software to promote audience engagement. The event was a success and received positive with all attendees rating the event as good or excellent.
- 12.2 Overall, customer engagement proved the most popular topic as the Fund delivered a presentation noting the engagement activity for both members and employers, using our engagement opportunities to highlight the current key themes across the industry throughout the year. Performance and transformation, together with the Fund outlook came in second place of most popular topics which shows the keen interest our employers have in our work and areas of focus.
- 12.3 This year the event included some interactive mobile phone software to promote audience engagement, during those session, employers chose a preference for more briefing notes and updates from the Fund, together with more opportunity for face to face engagement. As noted in the report, the Fund has identified potential opportunities for further engagement with employers and has recently expanded its Employer Peer Group as reported to Committee in June.
- 12.4 This event was also a key time to engage and receive comments on the Fund's proposals for the development of Employer Hub with a high preference from employers to have the ability to run and access their own reports on performance and service delivery. This is a key functionality the Fund is looking to develop with the Hub and reinforced the potential benefits this will bring for both employers and the Fund.

13.0 Annual General Meeting 2019

- 13.1 The Fund's 2019 Annual General Meeting has been booked for the 3rd December 2019 at the WV1 Bar at Molineux Football Stadium. Invites will be sent out late October to all

employers and, building on the feedback received from MYR 2019, will include an update on data management and progress with the actuarial valuation (although noting the ongoing individual employer engagement), together with a regulatory update to share emerging changes across the LGPS and wider-industry.

14.0 Financial implications

14.1 The report contains no direct financial implications.

15.0 Legal implications

15.1 The report contains no direct legal implications.

16.0 Equalities implications

16.1 The report contains no direct equalities implications.

17.0 Environmental implications

17.1 The report contains no direct environmental implications.

18.0 Human resources implications

18.1 This report contains no direct human resources implications.

19.0 Corporate landlord implications

19.1 The report contains no direct corporate landlord implications.

20.0 Schedule of background papers

20.1 None.

21.0 Schedule of appendices

21.1 Appendix A: Member Services feedback.

21.2 Appendix B: Member Services events covered 1 March to 30 June 2019.
