Your Licensing enquiry

We, local neighbours of The Pendulum pub on Pendeford, were very pleased to see that you have suspended their licence for abuse of the corona virus restrictions currently in place.

We would politely ask that you close this pub permanently as it a constant source of noise, be it loud music or drunken fighting late at night. We also have our suspicions of drug dealing on the site.

Separately, and we appreciate that this may not be a licensing issue, they also run a car wash on the premises which is also a great noise nuisance.

You would be doing the law abiding residents of Pendeford a good service by closing down this pub.

If you do take any of this into consideration, can i ask that, for my own safety, you keep my name and contact details private.

Many thanks .
