### Overview Map of All Wards with Proposed Changes

Wolverhampton  
South-west

Wolverhampton  
North-east

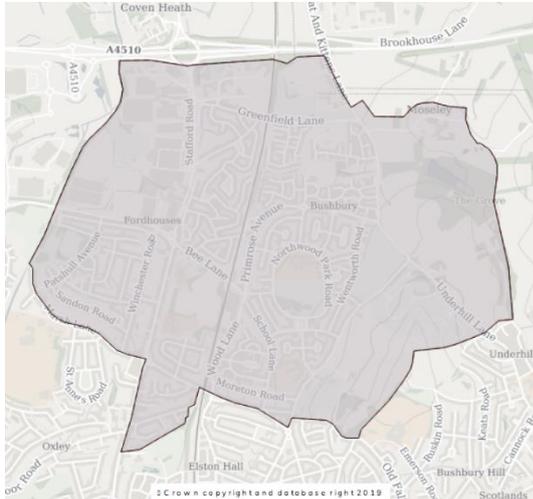

[wolverhampton.gov.uk](http://wolverhampton.gov.uk)

Wolverhampton North-East

## Ward: Bushbury North

Forecast Electorate (proposed boundary) 2026: 3068, (-3% variance)

### Proposed Bushbury North Ward Boundary

Bushbury North is on the northern central edge of the city, with much of the boundary being with Staffordshire County. The north and northwest of the ward is the new i54 industrial estate and the east of the ward is significant areas of open ground in Bushbury Hill, Bushbury Cemetery, the Moseley Estates and Moseley Farm. Parts of Bushbury North are constrained by the northwest, the north and the northeast of the ward being the boundary between Wolverhampton and Staffordshire County.

The boundary between Bushbury North and Fallings Park ward follows a footpath running along the southern part of Bushbury Hill. This means that the built up areas to the south are in Fallings Park and the open and wooded areas to the north are in Bushbury. The footpath joins the road at Sandy Lane and follows Sandy Lane in a westward direction, with houses to the south and Bushbury Hill Open Space Farm and allotments to the north.

The boundary then follows the Elston Hall Lane dual carriage way and main road just passed the Stafford Wolverhampton Mainline. There is then a detour to take in the Crathorne Estate as this estate leads directly back onto Three Tuns Lane. It is to be noted, for instance that the road joining Stafford Road is an exit off Stafford Road and Church Road has to go onto Three Tuns Lane to exit.

The boundary then runs north of Goodyear Park taking in the estate until it reaches Stafford Road. The boundary then goes north up the Stafford Road dual carriage way until the Three Tuns Island. The boundary is then Marsh Lane until it reaches the Staffordshire and Worcester Canal. Marsh Lane is a wide road and is the main road through the estate. The Staffordshire and Worcester Canal has limited crossing points and therefore makes an appropriate boundary at that point.

## Proposed Bushbury North Ward characteristics

There are several primary schools that serve Bushbury North and have a catchment area that is almost entirely within the ward:

- Elston Hall Primary School
- Northwood Park Primary School
- St Anthony's Catholic (Aided) Primary School

There are several large playing fields in the ward, such as Bee Lane, Northycote Park and Northwood Park, including tennis courts etc.

In the centre of the ward is Bushbury Community Centre.

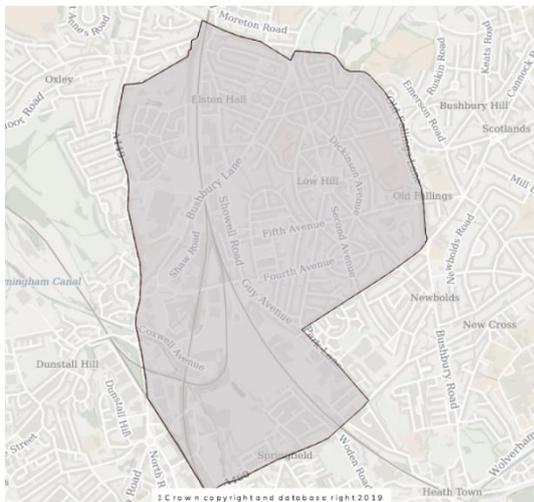

The extreme North of the ward is all 1980's private residential dwellings, the central bit is predominantly council housing estates from the 1940s and 1950s. The central spine of the ward is council homes and the same with the Fordhouses estate on the other side of the Stafford Road.

The Bushbury North is a relatively modern development of housing to the north of the city. With much of it developed between the wars and after the wars.

## Ward: Bushbury South & Low Hill

Forecast Electorate (proposed boundary) 2026: 3370, (6% variance)

### Proposed Bushbury South & Low Hill Ward Boundary

Bushbury South & Low Hill is a ward immediately to the north of the city centre of a predominantly urban nature with housing estates particularly on the east and north of the ward, and large industrial estates in the west and southwest of the ward. The southwest boundary of the ward is the main railway line from Shrewsbury to Wolverhampton at the section between Stafford Rd and Cannock Rd. Where the railway line passes over the Cannock Rd, the boundary of Bushbury South and Low Hill ward then runs in an easterly direction as far as Park Lane. It then turns left up

Park Lane and right along Park Lane so that Park Lane becomes the easterly boundary of the ward. This makes sense because the land uses and housing on either side of Park Lane are of a different age. The Cannock Road is a main road, so it's a clear boundary and Park Lane is a clear boundary because it takes different land uses on either side.

The west of the boundary is then Old Fallings Lane, which is a main road with some different land uses at different occasions, for instance, St Chad's Catholic Academy at one point. The eastern boundary continues along Old Fallings Lane until he runs into Sandy Lane. Again, with houses to the left to the south and Bushbury Hill to the north. It then joins Elston Hall Lane which is a main road until just after the railway bridge. The boundary then turns down Church Road running across the north of Goodyear Neighbourhood Park, which forms an effective boundary for this for this area.

### **Proposed Bushbury South & Low Hill Ward characteristics**

Houses to the north here naturally, feed onto Three Tuns Lane and not into Bushbury south ward. The western boundary of the ward is the Stafford Rd running into the city centre as far as the railway line. Again for much of the length of the Stafford Road houses are of different type in age on each side and different land uses.

There are several primary schools that serve Bushbury South and Low Hill and have a catchment area that is almost entirely within the ward:

- Our Lady & St Chad Catholic Academy
- Whitgreave Primary School serves the centre of the ward, with the catchment area being very much that area of the ward.
- Bushbury Lane Academy serves the western part of the ward.
- Low Hill Nursery School

Bushbury south and Low Hill has community centre provision in Bushbury Triangle, Northwood Park, Stratton Street and one at Coven Lodge which serve there own discreet communities across the ward. The Low Hill Community Hub is a well-used community hub with a well used library.

The ward also has several neighbourhood parks, including Fowler's playing field, Goodyear Neighbourhood Park and Bushbury Rec on Bushbury Lane.

## Ward: Fallings Park

Forecast Electorate (proposed boundary) 2026: 3355 (6% variance)

### Proposed Fallings Park Ward Boundary

The eastern boundary of the ward is constrained by being the boundary with Staffordshire. From the northern boundary Bushbury North ward, the boundary follows a well used foot path, with the areas to the north in Bushbury being very rural and the areas to the south in Fallings Park being predominantly built up areas. The footpath then joins Old Fallings Lane, which is a main road and runs south until the junction with Park Lane. The boundary then follows Park Lane, in a south westerly direction and also in a south easterly direction when Park Lane takes a right angle turn. Park Lane is an appropriate boundary because it has houses of different types on both sides and different land uses.

The boundary then joins the main Cannock Rd before following straight on into Victoria Rd and Thorneycroft Ave which are main roads running in a north-easterly direction to the borough boundary, so Thorneycroft Lane and Lower Prescott Rd to the back of the borough boundary. For Victoria Road, Thorneycroft Avenue and Prestwood road it's only the one side of the road that is within Fallings Park. The whole length of this is running along a well used main Rd, with different land uses and different ages of houses in much of the stretch of the road.

### Proposed Fallings Park Ward characteristics

There are several primary schools that serve Fallings Park and have a catchment area that is almost entirely within the ward:

- D'Eyncourt Primary School
- Fallings Park Primary School
- Long Knowle Primary School
- St Mary's Catholic Primary Academy
- Berrybrook Primary School
- Westcroft School

There is also the Long Knowle Community Centre in the north east corner of the ward, which is a well-used Community Hub including a library. There are well established community centres for established communities these are Chesterton Road Community Centre and Scotlands Community Centre.

The Inchlaggan estate orientates towards the Fallings Park ward and is significantly enhanced by the fact that the map that the Council has used to draw the wards has Fallings Park written on the section that has been added to the ward. The extension of the ward to the southwest brings in the appropriate name for the Fallings Park estate.

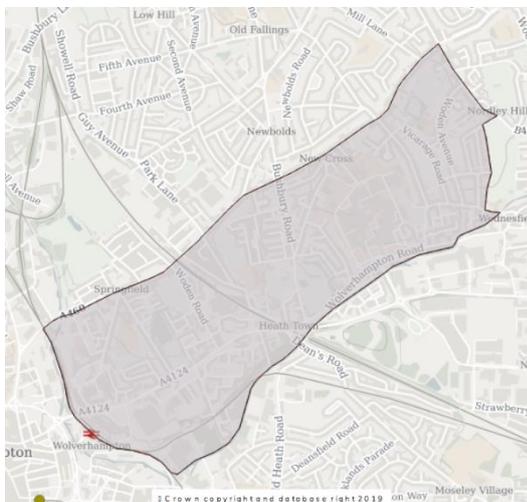

Housing is of early 1930s, traditional semis, council housing which was built in the 1950s. In the north of the ward there is predominantly social housing and council housing built post war onwards. Distinguished from the south ward, which is predominantly private housing built at various times from the 1920s, right up to modern day.

Many of the areas within the ward are actually mixed tenure and mixed ownership.

## Ward: Heath Town

Forecast Electorate (proposed boundary) 2026: 3167, (0% variance)

### Proposed Heath Town Ward Boundary

Heath Town is a ward immediately to the north east of the town centre, running from the town centre to the edge of Wednesfield. The southwest boundary of the Heath Town ward is the main West Coast Railway line between Cannock Road and the Wyrley and Essington Canal. The southwest boundary of Heath Town ward then follows the Wyrley and Essington Canal all the way into Wednesfield Village centre where it follows the western side of Wednesfield Park, the Amos Lane main road and then turns left into Thorneycroft Lane, Victoria Road and Cannock Road. All of these are main roads, often with different ages of housing and land use on both sides.

## Proposed Heath Town Ward characteristics

A fair proportion to the to the southern end of the ward is university based type housing as well a growing university campus and university housing. The southwest half of the ward is predominantly public build housing in the Springfield area including the Springfield Estate, the Heath Town High Rise Estate and Park Village estate. There is also a set of high rises in this Wednesfield area. The north easterly part of the ward is dominated by the campus of New Cross Hospital and either side of this are predominantly private houses built between and after the wars.

There are several primary schools that serve Heath Town and have a catchment area that is almost entirely within the ward:

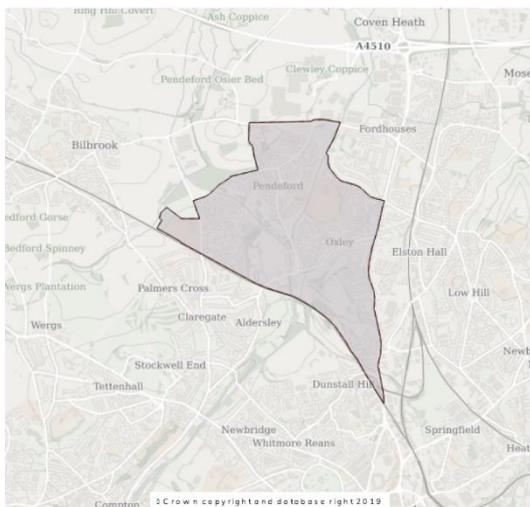

- St Patrick's Catholic (Aided) Primary School
- St Stephen's CE Primary School
- Trinity CE Primary Academy serves the centre of the ward.
- Thomas Telford UTC
- Wodensfield Primary School serves the east of the ward.
- Woden Primary School serves the west of the ward.
- Heath Park secondary school is located in the centre of the ward which is a popular secondary school.

Heath Town Park.

## Ward: Oxley

Forecast Electorate (proposed boundary) 2026: 3171, (0% variance)

## Proposed Oxley Ward Boundary

The Oxley ward is predominantly a residential ward in the northwest corner of the city.

The northern and western boundaries are dictated by being the county boundary with Staffordshire County. The southwest boundary is the main Shrewsbury to Wolverhampton Railway line. It is a double track railway line which is predominately raised on an embankment. Some is in a cutting; some is in a viaduct, therefore there is very limited roads across the railway line. There are only three roads, two in the suburban area. Oxley Moor Road is a single track road with traffic lights and Pendeford Lane is a side road and not a main road. The only other the way to cross the railway track is via Gorsebrook Road which is right in the in the city therefore the double track railway line makes an effective boundary between Oxley and wards to the west.

At the edge of the city centre, the railway line joins the Stafford Road, which is dual carriage way and becomes the eastern boundary of Oxley ward. For much of the length of the Stafford Road here are different types of houses and different types of land use on either side of the road.

It is acknowledged that there would be a neater boundary if the Stafford Road boundary was at Wobaston Road, Bee Lane Island, but continuing up direct Stafford Rd that far would make the Oxley ward too big. Therefore the decision has been made to move it onto Marsh Lane as the boundary running up to the Staffordshire and Worcester canal where the boundary goes north to the joint boundary with Staffordshire.

A better boundary would have been to carry on up to the Wobaston Road, Bee Lane Island however, that would have made the ward too large.

Marsh Lane is a wide road and in the context of the estate it is the main road through this estate. The Staffordshire and Worcester Canal has very limited crossing points and therefore makes an appropriate boundary at that point.

### **Proposed Oxley Ward characteristics**

The western part of the of the ward consists of the Dovecotes and Pendeford estates which were built in the 1970s onwards. The Oxley Moor Estate was built between the 1920s and 1930s and then in the South of the ward is the Oxley Heights Estate, which is a mixture of houses from the 1940s, 1950s, to modern ones built in the 1980s and 1990s.

The southern part of the ward is known as Oxley Heights and occupies a mixture of houses and ages ranging from Victorian terraces through to semis and houses built in the last 20 to 30 years of modern design.

The southern parts of the of the ward is home to Oxley Golf Course and has two canals passing through the ward Shropshire Union and Staffordshire and Worcester, both which have significant green routes through the area.

The Pendeford Community Hub is a popular location with a wide range of community facilities and well used library.

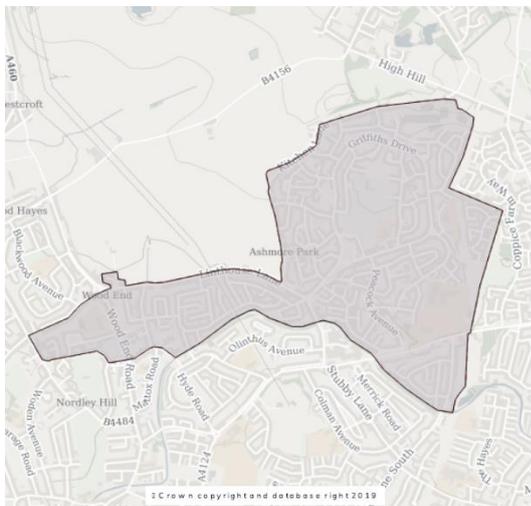

There are several primary schools that serve Oxley and have a catchment area that is almost entirely within the ward:

- Dovecotes Primary School serves the Dovecotes Estate.
- Rakegate Primary School serves the Oxleymore Estate.
- St Paul's CE (Aided) Primary School serves the Pendeford Estate.

### **Ward: Wednesfield North**

Forecast Electorate (proposed boundary) 2026: 2913, (-8% variance)

### **Proposed Wednesfield North Ward Boundary**

Wednesfield North is a predominantly residential ward in the north east corner of the city. The boundaries are constrained by the northern boundary being with Staffordshire County Council and the eastern boundary being with Walsall Council. The southern boundary of the ward is the Wyrley and Essington Canal and this is an appropriate boundary because it is crossed by few roads and residents either side look upon it as a natural boundary, as in for instance, the catchment areas of both primary and secondary schools. The southern boundary follows the canal until Moat House Lane West, where Moat House Lane West and Bellamy Lane become the southern boundary. Moat House Lane and Bellamy Lane have houses on different sites for much of its length and a sports ground to the west. The western boundary is a short distance of Amos Lane which is a wide main road, again with different housing on both sides, before the boundary turns right along lower Prestwood Rd as the northwest boundary and joins back onto the boundary with Staffordshire.

### **Proposed Wednesfield North Ward characteristics**

Much of the housing to the North east is the large Ashmore Park estate which was developed between the wars and was the biggest council estate in Europe, now it is of mixed tenure. Other housing is private housing built between the wars, with some more modern development.

There are several primary schools that serve Wednesfield North and have a catchment area that is almost entirely within the ward:

- Corpus Christi Catholic Primary Academy has a catchment area north of the canal whereas Wednesfield High School has a catchment area south to the canal.
- Oak Meadow Primary School
- St Alban's CE Academy
- Wood End Primary School serving the west of the ward.
- Corpus Christi serving the east of the ward.
- St Albans

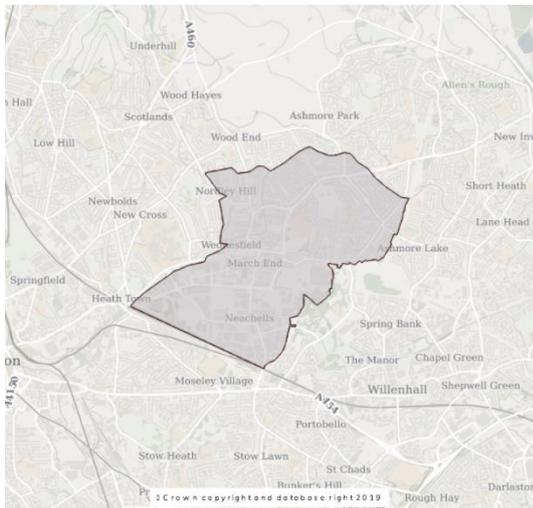

There are four schools, all serving the ward and being north of the canal, have natural catchment areas including Oak Meadow Primary School, St Albans Church of England Primary

The Ashmore Park Community Hub is a popular community hub which also has a library and the large Ashmore Park attached to it, which includes the Wednesfield Aces cycle track.

### **Ward: Wednesfield South**

Forecast Electorate (proposed boundary) 2026: 3229, (2% variance)

### **Proposed Wednesfield South Ward Boundary**

Wednesfield South is a ward split almost into two halves, with the residential portion being in the north of the ward and a large series of industrial estates predominantly in the south of the ward. The easterly and south easterly boundary of the ward is constrained by being the boundary with Walsall Council. The north east and north boundary of the ward runs along the Wyrley and Essington canal, as this forms an appropriate boundary. When the canal meets Moat House Lane West and Bellamy

Lane this becomes the boundary in the north and this is appropriate because there are different types of houses including a sports ground.

The boundary then turns in a southerly direction along Amos Lane, a wide main road, before running down the westerly part of Wednesfield Park. It then re-joins the Wyrley and Essington canal, which becomes the boundary for the rest of the westerly portion until it meets the main railway line. The main railway line then becomes the southerly boundary of the Ward until it meets the boundary with Walsall Council.

### **Proposed Wednesfield South Ward characteristics**

Wednesfield is identified in Anglo Saxon Chronicles. The centre of the ward is Wednesfield village with a good array of shops and well attended market.

There are several primary schools that serve Wednesfield South and have a catchment area that is almost entirely within the ward:

- Edward the Elder Primary School
- St Thomas' CE Primary Academy
- Perry Hall Primary School
- Soon to be established Wednesfield Village School which is a free, all with catchment areas predominantly in in the ward.

Wednesfield High School is in the centre of the ward and the catchment area for this is very much defined as being south of the canal.

Wednesfield South is also home to the popular Wednesfield Community Hub and library. Other popular recreation facilities in the area include the popular used Wednesfield Park and King George the fifth playing field, and the local canals hold the yearly Wednesfield Canal Festival. There is also a local memorial site based in Wednesfield South, which is served by the British Legion.

It is appropriate to bring the Fishes Estate off Wednesfield Way into Wednesfield South ward because many of the residents use Wednesfield Village, the Bentley Bridge Retail Park and the Wednesfield Gurdwara.

The Bentley Bridge Retail Park and Wolverhampton Swimming and Fitness and Centre are also located in this ward.

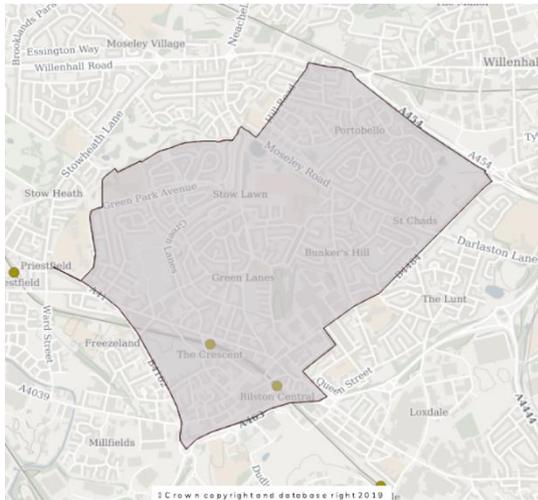

Bowman's Harbour, the first urban solar farm in Wolverhampton will also be located in this ward and will supply energy to New Cross Hospital.

## Wolverhampton South-East

### Ward: Bilston North

Forecast Electorate (proposed boundary) 2026: 3323, (5% variance)

### Proposed Bilston North Ward Boundary

The northeast boundary of Bilston North ward is delineated by The Keyway dual carriageway, which forms a boundary with Walsall Borough. The southwest boundary of the ward is Bilston Road, Willenhall Road and Mount Pleasant which is a wide main road with different housing and land uses along significant parts of it. Upon approaching Bilston Town Centre, the boundary of Bilston East ward goes along James Street and Lewis Street so that areas of the town centre feeding onto Mount Pleasant and Lichfield Street are part of Bilston North ward so that the whole of the city centre is contained within one ward. The boundary then continues along Oxford Street and turns onto the Black Country Route before turning again to go up Wolverhampton Street. The Black Country Route is a main dual carriageway and Wolverhampton Street is a busy main road. The Black Country Route has different land uses on both sides for instance the market and bus station on one side and a superstore and leisure centre on the other side. Wolverhampton Street has a school and park on one side and housing on the other.

The western boundary then continues along Wellington Road, the A41, part of which is a dual carriageway. The boundary then turns off the main road along the edge of the City of Wolverhampton College Campus following the open ground between Bilston North ward and East Park ward. the boundary follows a wide open path and wide open landscape so that houses and streets to the south of the path go into Bilston North and houses and streets to the north of the path are in East Park ward. Whilst this is not an ideal boundary, it is easy to see on the ground. The open land and the path then joins Moseley Road before turning onto Hill Road. Hill Road is a well-used road with different land uses for part of the way including a Community Centre and primary school on other side and housing on the other end of the parts.

From Hill Road the boundary joins Willenhall Road which is a busy dual carriageway which then joins The Keyway dual carriageway which forms a boundary with Walsall Borough.

### **Proposed Bilston North Ward characteristics**

Bilston North ward is a predominantly residential ward but includes Bilston Town Centre including the Central Bus Station and Metro stops. It also includes Bilston Cemetery, Hickman Park, Prouds Lane playing fields, Bilston Town Hall with an events centre, Bilston Community Centre and The Robin 2 a large entertainment venue which attracts people from a long distance.

Grapes Pool is a large open space.

The western part of the ward contains a significant amount of inter war council houses and the eastern part of the ward is more predominantly private houses from between the wars onwards. There are newer private houses around the north of the ward, in the middle of the ward there is a mixture of private and council houses. The south has some older council houses and then more expensive private houses. Mount Pleasant also has a significant modern industrial estate.

### **Schools**

There are several primary schools that serve Bilston North and have a catchment area:

- Stowlawn Primary School Primary serves the west of the ward.
- Villiers Primary School Primary Academy serves the centre of the ward.
- Green Park Special School is located in the west of the ward.
- Stow Heath Primary School Primary serves the north of the ward.
- Moseley Park Secondary School with its playing fields is located in the centre of the ward.

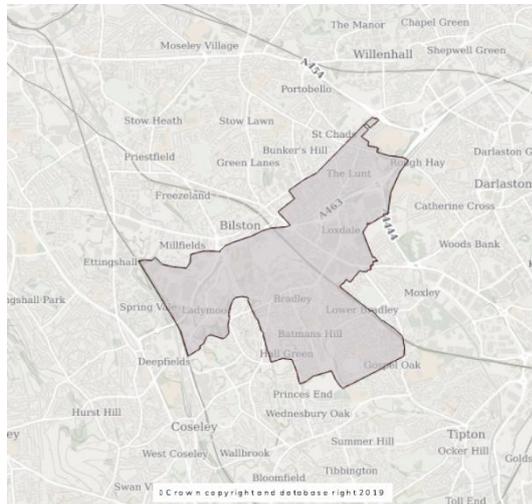

### **Places of Worship**

*Ward Councillors to provide details if required.*

## Ward: Bilston East

Forecast Electorate (proposed boundary) 2026: 3422, (8% variance)

### Proposed Bilston East Ward Boundary

Bilston East is a ward on the south east of the city with the eastern and southerly borders delineated by the boundaries with surrounding boroughs of Walsall, Sandwell and Dudley. The western boundary of the ward is the main Wolverhampton to Birmingham doubletrack electrified railway line and the north western boundary of the ward is the Black Country Route running from the railway line into Bilston Town Centre. The boundary then follows the Black Country Route until its junction with Oxford Street where it follows the street north towards the town centre, however the ward boundary then goes round streets in the town centre to avoid those streets leading into the town centre so that streets in the town centre are in a different ward, but streets leading away from the town centre are in Bilston North.

The northern boundary then goes along Mount Pleasant and Willenhall Road which is a wide main road with significant different uses on both sides. Some areas on both sides are used for housing and some for industry. The extreme north of the border is with The Keyway double carriageway, which is the border with Walsall Borough.

### Proposed Bilston East Ward characteristics

The Lunt Community Centre is in the north east of the of the ward which is a popular and well used facility.

There is also the Bilston Craft Gallery Museum on Mount Pleasant Road which is a popular and well used facility.

The Bilston East ward is home for the Bilston Town Football Club.

Rocket Pool Community Centre.

Bilston Senior Citizens Centre on Wilkinson Avenue.

The Lunt Estate is a between the wars council estate. The area northeast of the town centre is Victorian terraced housing. The top half of Bradley is a mixture of council

and private tenure of various ages, ranging from a small number of Victorian terrace houses, between the wars houses, to some very modern developments that are being built at Bilston Urban Village, which was previously an old industrial estate.

Much of Bilston East is going through rejuvenation as the manufacturing centres have closed and are being replaced by modern industrial estates and modern housing.

The Bert Williams Leisure Centre and Bilston Health Centre are also located in the Bilston East ward.

## Schools

There are several primary schools that serve Bilston East and have a catchment area that is almost entirely within the ward:

- Field View Primary School serves the
- Holy Trinity Catholic Primary School serves the
- Loxdale Primary School serves the
- St Martin's CE Primary School serves the south of the ward.
- Wilkinson Primary School serves the southern part of the ward.

There is also the Ormiston South Wolverhampton and Bilston Secondary Academy in this ward.

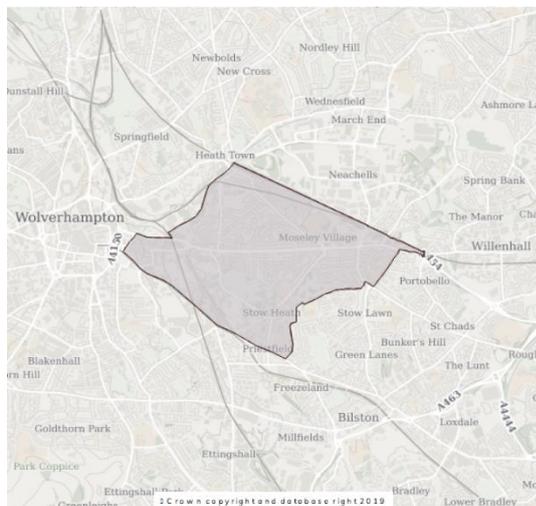

## Places of Worship

*Ward Councillors to provide details if required.*

## Ward: East Park

Forecast Electorate (proposed boundary) 2026: 3152, (-1% variance)

## Proposed East Park Ward Boundary

The East Park ward is on the eastern edge of the city centre with East Park being in the centre of the ward. The ward is a mixture of housing but also with some large industrial estates.

The easterly boundary of the ward is delineated by running along the railway line, which also forms the boundary with Walsall Borough. The northerly and easterly boundary then follows the railway line until its junction with the Wryley and Essington Canal. The boundary of East Park at the north westerly boundary is then the Wryley and Essington Canal until it joins the Birmingham Canal for a little way and then along the main Horseley Fields Road with different land uses on both sides. Then onto to Middle Cross, a busy dual carriage way which forms the westerly boundary and then the south westerly boundary is along the busy A41 Bilston Road which has different land uses along it for significant stretches but is mainly an industrial and factory based road. The junction at Bilston Road and Wellington Road is the main westerly boundary until we get to the Bilston campus of City of Wolverhampton College, where the boundary then follows a footpath and wide open spaces etc.

The boundary then turns off the main road along the edge of the City of Wolverhampton College Bilston campus following open ground between Bilston North ward and East Park ward. The boundary then follows a wide open path and wide open landscape so that houses and streets to the south of the path go into Bilston North and houses and streets to the north of the path are in East Park ward.

### **Proposed East Park Ward characteristics**

East Park has a large proportion of council housing, particularly from between the wars, together with newer private houses. The East Park estate and the Eastfield estates are very much in between war council and private housing.

There is also a well-used Eastfield Community Centre on Colliery Road.

East Park Library, on Hurstbourne Crescent.

The East Park ward is also home to the Monmore Green Dog Track and Speedway track.

### **Schools**

There are several primary schools that serve East Park and have a catchment area that is almost entirely within the ward:

- Eastfield Primary School Primary serves the north of the ward.
- East Park Academy Primary serves the south of the ward.
- Holy Rosary Catholic Primary Academy serves the x of the ward.
- Stow Heath Primary School serves the east of the ward.
- Eastfield Nursery School serves the north of the ward.

St Matthias Secondary School on Deans Road is a large modern secondary Academy school located in East Park ward.

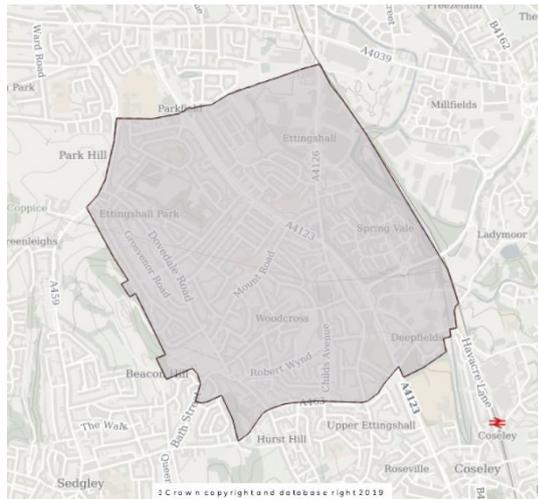

## Places of Worship

*Ward Councillors to provide details if required.*

## Ward: Spring Vale

Forecast Electorate (proposed boundary) 2026: 3355, (6% variance)

### Proposed Spring Vale Ward Boundary

The westerly and southern boundaries of Spring Vale are delineated by being the boundaries with Dudley Borough. The eastern boundary of Spring Vale, is the Birmingham to Wolverhampton main electrified railway line until its junction with Manor Road. The northerly boundary of the ward then cuts across the back of the houses on Parkfield Road and runs along Inverclyde Drive, which is a clear boundary because of the large trading estate on one side and a modern estate on the other. This then runs through to the junction with Birmingham New Road and goes straight across to Lawnswood Avenue, which is not a major road, but it is a significant road with housing on one side and a large education campus on the other.

The north western boundary is then the main A4459 Wolverhampton to Dudley, busy main road.

### Proposed Spring Vale Ward characteristics

The South of the ward is predominantly between war council estates. Woodcross and Ettingshall Park are significant council estates but there is also significant private housing in the Dovedale and Farrington estates. The Lanesfield estate is a mixture of houses and maisonettes which are council houses built between the wars.

There is a library located on Birmingham New Road at the junction with Lawnswood Avenue.

There is a large cemetery on Dovedale Road.

## Schools

There are several primary schools that serve Spring Vale and have a catchment area that is almost entirely within the ward:

- Hill Avenue Primary Academy serves the centre of the ward.
- Lanesfield Primary School serves the centre of the ward.
- Manor Primary School Primary serves the southern part of the ward.
- Spring Vale Primary School serves the northern part of the ward.

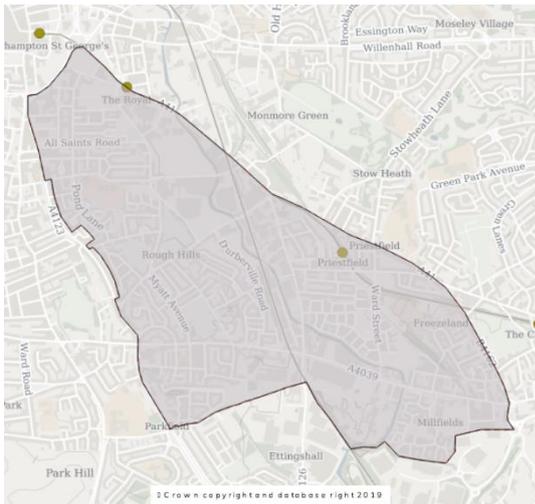

## Places of Worship

*Ward Councillors to provide details if required.*

## Ward: Ettingshall

Forecast Electorate (proposed boundary) 2026: 3416, (8% variance)

### Proposed Ettingshall Ward Boundary

The north eastern boundary of Ettingshall ward along the main A41 Bilston Road and Wellington Road until the junction with Wolverhampton Road, again with different land uses on both sides, parks and housing. The southern boundary of the Ettingshall ward is delineated by running along the edge of the Villages Estate so that all those leading on to Millfield Road are in Ettingshall ward and all roads leading south onto the Black Country Way are in Bilston East.

The boundary of Ettingshall then follows the Birmingham Canal for a short distance before following the Wolverhampton railway line and then to the junction with Manor Road, where it follows a path taking in houses that have exits to the north, so that the Hilton Estate trading estate and factories are to the south of the boundary and the housing estates are to north of the boundary, which will be part of Ettingshall. The Ettingshall boundary continues along the Birmingham New Road and Thompsons Avenue up to the ring road, then follows the ring road to start again at Bilston Road, the Birmingham Road A4123.

## **Proposed Ettingshall Ward characteristics**

Ettingshall ward is a predominantly inner-city ward to the South East of the city centre, with significant areas of industry but also with areas of industry being replaced by more modern housing.

The All Saints area in the north of the city is Victorian terraced housing. The Grove, Ettingshall and Priestfield Estates are traditional council housing from between the wars. In the eastern section of the ward there is a variety of houses with some Victorian terrace houses, in between the wars council houses and more modern private houses.

There is a significant number of new housing around Cable Street just over 600 houses, and also on the former bus depot site on Cleveland Road and some scheduled for the Royal Hospital site and on Ward Street in the eastern part of the ward.

There is a large allotment site on Howell Road and a recreation ground on Kent Road.

## **Schools**

There are several primary schools that serve Ettingshall and have a catchment area that is almost entirely within the ward:

- Bilston CE Primary School serves the east of the ward.
- Grove Primary School serves the north of the ward.
- Parkfield Primary School serves the x of the ward.
- SS Mary & John Catholic Primary Academy serves the north of the ward.
- Windsor Nursery School serves the south of the ward.

The Wolverhampton Vocational Training Centre Free School is also located in this ward.

The Khalsa Academy Wolverhampton is secondary school located in this ward.

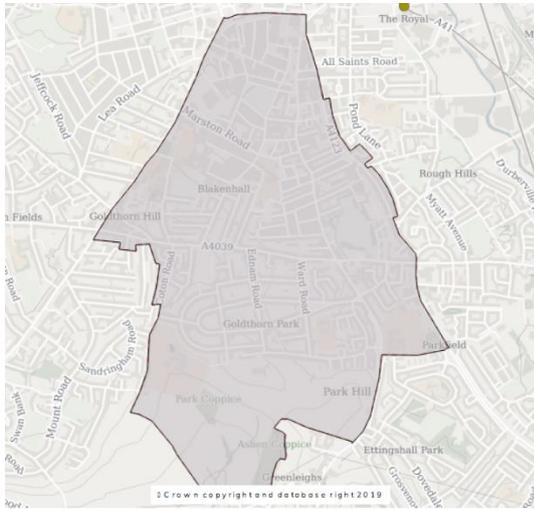

## **Places of Worship**

*Ward Councillors to provide details if required.*

## Ward: Blakenhall

Forecast Electorate (proposed boundary) 2026: 3087, (-3% variance)

### Proposed Blakenhall Ward Boundary

Blakenhall is a ward to the south of the city, stretching from the ring road to the boundary with Dudley Borough. The easterly boundary of the ward is along the Birmingham New Road and Thompson Avenue. It is proposed that Thompsons Avenue, both sides, go into the Blakenhall ward because the housing is very similar on both sides. The boundary then continues from Thompsons Avenue along the Birmingham New Road, until its junction with Lawnswood Avenue. Lawnswood Avenue is a prominent road with a large education campus to the north, housing to the to the South. Then the boundary follows the Wolverhampton Road for a short distance, the Wolverhampton Road being the main road A459 until the boundary with Dudley Borough. The southern boundary with Dudley is followed until the edge of the Colton Hills playing fields, the western boundary of Colton Hills School is then used as the boundary for Blakenhall ward. Both sides of Colton Road are taken into Blakenhall ward as there is housing on both sides and people living on the road need to go into Blakenhall ward to exit onto their houses. At the southwestern boundary of Blakenhall ward is then both sides of Goldthorn Hill again as houses here, and the cul-de-sacs here need to exit onto Goldthorn Hill to exit the ward. The houses in Goldthorn Hill are both of a similar size and type on each side. The western boundary of Blakenhall ward is then the main Penn Road the A449 back into the city centre which then follows the ring road. The Penn Road is a very busy main A road with different types of housing and land uses along the length and is a dual carriage way at its inner city part.

The northern boundary of Blakenhall ward is a ring road St Johns, a busy wide dual carriageway back to the Birmingham New Road.

### Proposed Blakenhall Ward characteristics

Blakenhall ward is a varied ward with a significant amounts of industrial estates particularly in the northern part of the of the ward and the extreme southern part of

the ward is a rural area including the open playing fields of Colton Hills Community School.

The centre of the ward runs along the busy Dudley Road with its shops and Victorian terrace houses on both sides which attracts visitors from all over the city and beyond because of its wide range of speciality shops. The centre of the ward is also densely populated.

The southern part of the ward Goldthorn Hill is a between the wars and later private estate with more modern housing.

There are some significant open spaces in terms of Phoenix Park and Blakemore Recreation Ground, Colton Hills School and the Seven Cornfields at the South.

The Bob Jones Community Centre serves the centre of the ward.

The Phoenix Walk-In Centre is located on the Parkfield Road.

Paul Street - Sunbeam building - how many additional people will be added to the register in Blakenhall. 70 flats and another 130 to go, additional 2% of the votes in Blakenhall.

### **Schools**

There are several primary schools that serve Blakenhall and have a catchment area that is almost entirely within the ward:

- Goldthorn Park Primary School Primary serves the southern parts of the ward.
- Graiseley Primary School serves the north of the ward.
- St Luke's CE (Aided) Primary School serves the north of the ward.
- St Teresa's Catholic Primary School serves the southern parts of the ward.
- Royal Free School serves the western part of the ward.
- Phoenix Nursery serves the north of the ward.

Colton Hills Community School is a secondary school located in the ward.

### **Places of Worship**

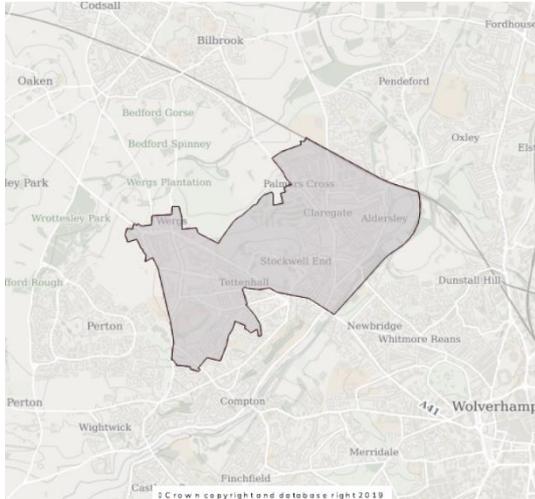

*Ward Councillors to provide details if required.*

## Wolverhampton South-West

### Ward: Tettenhall Regis

Forecast Electorate (proposed boundary) 2026: 3265, (3% variance)

### Proposed Tettenhall Regis Ward Boundary

The western boundary of the ward is delineated by the fact that it's the county boundary with Staffordshire. The northern boundary of the ward is the double-track main railway line between Aberystwyth and Wolverhampton. The north-eastern boundary of the ward follows the Staffordshire and Worcestershire Canal to its junction with Tettenhall Road, A41. The boundary then goes up The Rock and onto the Tettenhall Road A41, which is a busy and wide main road.

The South eastern boundary then follows a circuitous route to ensure that the post-World War Two council estate centred around Woodhouse Road North, and the Crescent are all in Tettenhall Regis. Whereas other forms of houses are in Tettenhall Wightwick ward. The boundary then joins up with Staffordshire County boundary.

### Proposed Tettenhall Regis Ward characteristics

Tettenhall Regis is a predominantly residential ward on the northwest edge of the city with significant areas of open space around Aldersley Leisure Village, South Staffordshire Golf Course, Upper Green, Lower Green, Danescourt Cemetery, the Kings School and Penk Rise Open Space.

As previously mentioned, housing in the south of the ward is predominantly post war council estate. The centre and north of the ward is generally between the wars and post war, with larger types of housing and is known as a middle class area. There is also a small industrial estate located in this ward.

### Schools

There are several primary schools that serve Tettenhall Regis and have a catchment area:

- Claregate Primary School serves the x of the ward.
- Palmers Cross Primary School serves the north of the ward.
- St Michael's CE (Aided) Primary School serves the x of the ward.
- Woodthorne Primary School serves the south of the ward.
- Tettenhall Wood Special School is also located within this ward.

The King's CE Secondary School is located in the west of the ward.

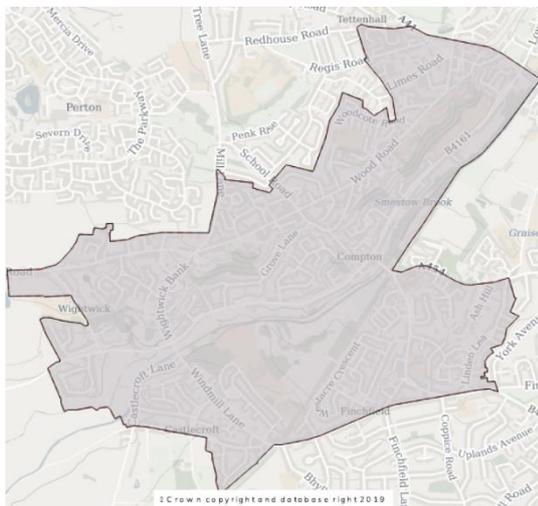

### Places of Worship

*Ward Councillors to provide details if required.*

### Ward: Tettenhall Wightwick

Forecast Electorate (proposed boundary) 2026: 3092, (-3% variance)

### Proposed Tettenhall Wightwick Ward Boundary

Tettenhall Wightwick is a predominantly residential ward on the southeast edge of the city. The western and southwestern boundaries are delineated being the boundary with Staffordshire County. The south eastern boundary runs along the Castlecroft Road, a wide and well used main road, this continues until its junction with Linden Lea. Where both sides of Linden Lea are taken into Tettenhall Regis ward, because the houses are the same, it makes a neat boundary with housing to the east which is in Park Ward.

The north eastern boundary of the ward then continues in a western direction along the Compton Road, the A454A, which is a wide and well road with different houses on both sides.

The boundary follows Compton Road West until its junction with the former railway track that forms part of Valley Park. The north eastern boundary of the ward then follows the former railway track and the Staffordshire and Worcester Canal, which

combined, form Valley Park, a wide leisure route, which makes an obvious boundary between wards.

The canal is followed until the bridge with the Tettenhall Road where the boundary of the ward turns left up The Rock a wide and wide main road. The boundary continues up into the centre of Tettenhall and then takes a left turn along Wrottesley Road, and a circuitous route to ensure that the council estate is in Tettenhall Regis and other houses, including the whole of Tettenhall town centre, are in one ward of Tettenhall Wightwick.

### **Proposed Tettenhall Wightwick Ward characteristics**

Tettenhall Wightwick ward has predominantly larger types of housing. However, there are two large council estates in the south at Castlecroft and Finchfield, both built in the 1950s and 1960s.

The boundaries of the ward have been drawn so that the whole of Tettenhall Town Centre is in Tettenhall Wightwick ward for ease of representation, together with the Technical College close by and the Wolverhampton Nuffield Private Hospital. Much of the south of the ward taken is up with Smestow Valley Local Nature Reserve and the Valley Park nature walk.

In the in the in the southwest corner of the ward is the National Trust Wightwick Manner with fine gardens and a Pre-Raphaelite art collection

### **Schools**

There are several primary schools that serve Tettenhall Wightwick and have a catchment area:

- Christ Church CE Infant and Nursery School serves the north of the ward.
- Christ Church CE Junior School serves the north of the ward.
- Castlecroft Primary School serves the south of the ward.
- Westacre Infant School serves the east of the ward.

Smestow Secondary School is located in the south of the ward serving much of the southern ward with King School serving the northern part of the ward.

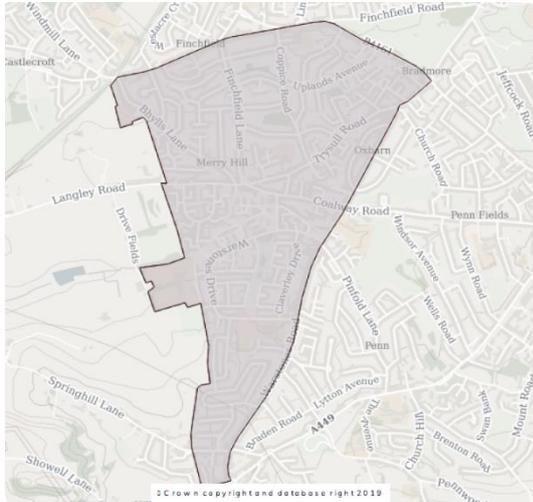

### **Places of Worship**

*Ward Councillors to provide details if required.*

## Ward: Merry Hill

Forecast Electorate (proposed boundary) 2026: 3122, (-2% variance)

### Proposed Merry Hill Ward Boundary

The Merry Hill ward is a predominantly residential ward on the southwest corner of the city. The south and west boundaries of the ward are delineated by the boundary with Staffordshire County. The eastern boundary of the ward runs along Warstones Road which is a wide and well used main busy road, then all the way to Oxbarn Avenue then Trysull Road all of which are busy, well used main roads. This route is often used as an alternative route into the city centre from the south of Wolverhampton. Upon reaching Bantock Park the boundary of the ward takes a left turn along Broad Lane which is a busy wide main road, the B4161, with housing to the left and Bantock Park to the right. It then follows Finchfield Road West for a short distance and Castlecroft Road, which are both busy main roads and bus routes.

### Proposed Merry Hill Ward characteristics

In north of the ward you have two main communities. In the Five Ways area there are predominantly large private dwellings detached and semi-detached houses from the 1930's to 1960s. In the centre of the ward, the Warstones council estate built post war and the southern section, Spring Hill is again has larger privately owned housing.

In the centre of the ward is the Warstones Green open space.

In the middle of the ward there are two tower blocks.

Warstones library is a well used facility.

### Schools

There are several primary schools that serve Merry Hill and have a catchment area:

- Springdale Primary School serves the south of the ward.
- Uplands Junior School serves the north of the ward.

- St Michael's Catholic Primary Academy and Nursery serves the centre of the ward.
- Penn Fields Special School serves the whole of the city.
- Bhylls Lane Primary School which serves the west of the ward is in fact a Staffordshire County School but attended by Wolverhampton residents.

Highfields Secondary School on the eastern boundary serves as the secondary school in the ward.

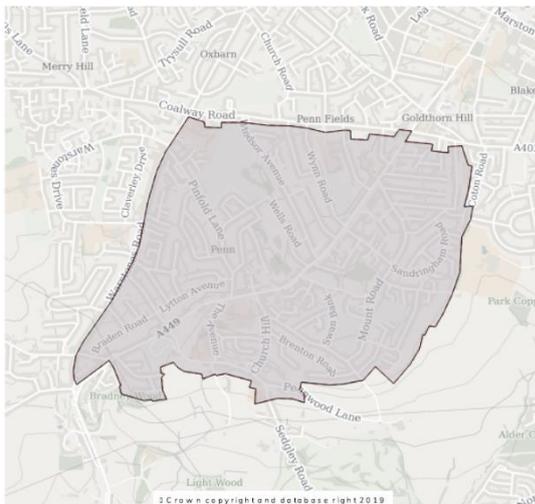

### Places of Worship

*Ward Councillors to provide details if required.*

### Ward: Penn

Forecast Electorate (proposed boundary) 2026: 3266, (3% variance)

### Proposed Penn Boundary

The southern Penn ward boundary is constrained by the boundary of Staffordshire County. The eastern boundary then follows a footpath along the western boundary of Colton Hills School and then to the rear of the boundary of Coton Road so that the whole of Coton Road is in Blakenhall. The ward borders the Penn ward as it forms part of the Goldthorn estate. Then the northern boundary of the ward follows the southern part of Goldthorn Road, so that both parts of Goldthorn Road are in Blakenhall ward as houses are very similar on both sides.

The north eastern boundary follows the southern parts, the sudden right of Goldthorn Hill to keep both sides of Goldthorn Hill together.

The northern boundary follows the southern parts of Coalway Road, so that both sides are Coalway Road are in the same ward.

On Coalway Road on both sides of the road there are substantially, for the most part, large detached and semi-detached properties.

The western boundary of the ward is Warstones Road a long, wide and busy main road which acts as a through road to the city centre.

### **Proposed Penn Ward characteristics**

Penn ward is a suburban community dominated by 1937 detached houses with virtually nil social housing. There are some substantial large properties, but not loads. It's suburbia and it's very green as well with lots of green open spaces for instance the large Windsor Avenue playing fields, Muchall Park, and Penn Cricket Club.

Woodfield Social and Sports Club a well-used local sports club.

The Penn Library is located within this ward and is a well-used facility.

Penn cemetery.

Penn Hospital is located within this ward and is a mental health hospital which serves the whole of the black country.

There are several primary schools that serve Penn and have a catchment area:

- Woodfield Primary School serves the north east of the ward.
- St Bartholomew's CE Primary School serves the south of the ward.
- Warstones Primary School serves the north west of the ward.
- Penn Hall Special School serves the whole city.

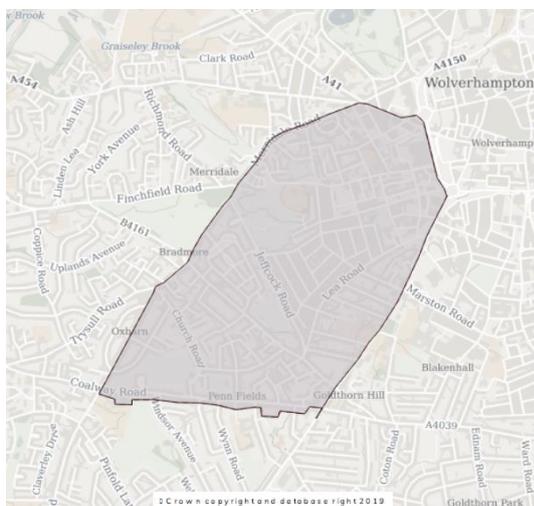

### **Places of Worship**

*Ward Councillors to provide details if required.*

### **Ward: Graiseley**

Forecast Electorate (proposed boundary) 2026: 2923, (-8% variance)

### **Proposed Graiseley Ward Boundary**

Graiseley is an inner city ward on the southwest of the city centre with significant parts of Victorian housing, but also with more modern housing in the suburban area.

The city centre boundary of Graiseley ward is the dual carriageway ring road running west onto Chapel Ash which is a wide main road with four lanes and the main route into the city. The north westerly boundary being Merridale Road, a wide main road with different types of housing on both sides and Bradmore Road which is another busy main road with housing to one side and Bantock Park to the other.

The boundary continues in a south westerly direction along Trysull Road and Oxbarn Avenue, both wide and busy main roads. The southern boundary of the ward takes in both sides of Coalway Road as both sides of Coalway Road are very similar with large detached and semi-detached housing all of a similar age, whereas those off of the road to the south that are in the Penn ward are of a significantly newer style.

The western boundary of the ward is the wide and busy Penn Road which is dual carriageway for parts of the way and is a busy route used into the city centre.

### **Proposed Graislely Ward characteristics**

The northern part of the ward is a mixture of Victorian housing, between the wars housing and new housing. Generally of smaller design, but also with the Graislely Flats estate built in the 1950s and 1960s, including high rise.

The centre of the ward, Penn Fields, is dominated by Victorian terrace houses. The southeast and south parts of the ward contain larger housing built between the wars and post war, many of these are of a detached and semi-detached design. In the central west of the ward is the large Bradmore council estate built between the wars.

### **Open Spaces**

Aspen Way open space, Lime St Recreation Ground, the large Jeffcock Road Cemetery and in the south of the ward Bradmore recreation ground with bowling green and tennis courts, Penn Field Bowling Club and Memorial Gardens.

The Penn Fields Cooperative allotments is a large allotment site located within the ward.

### **Schools**

There are several primary schools that serve Graiseley and have a catchment area:

- Bantock Primary School serves the centre of the ward.
- Merridale Primary School serves the north of the ward.
- Nishkam Primary School serves the north of the ward.
- The Royal School Wolverhampton serves the east of the ward.

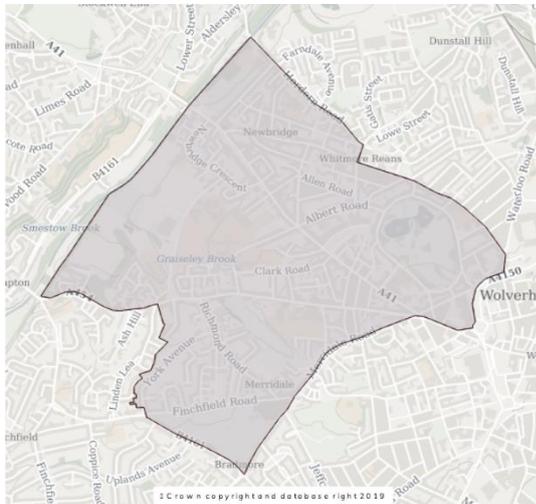

### **Places of Worship**

*Ward Councillors to provide details if required.*

## Ward: Park

Forecast Electorate (proposed boundary) 2026: 2985, (-6% variance)

### Proposed Park Ward Boundary

The Park Ward is a large ward on the west of the city centre and, as its name suggests, includes a number of parks. Therefore whilst being residential, it is also home to a number of wide open spaces.

The eastern boundary of the ward is the ring road dual carriageway. The north eastern part of the ward goes for a short length along the busy Waterloo Road and then along the length of New Hampton Road East. New Hampton Road East is a wide, busy main road leading to and from the city centre. Towards the ends of New Hampton Rd East, it becomes New Hampton Rd West and the ward boundary takes a short detour onto Hordern Road again a busy main road. With housing on both sides, but different housing at certain points.

The western boundary of the ward runs along the former railway track and canal. It runs first along the Stafford and Worcester Canal and later along the former railway track both of which form the Valley Park Nature Reserve and is a clear delineator between Park ward and wards to the west. When the railway crosses Compton Road West, the boundary for Park ward then runs along the Compton Road in an eastward direction, the A454, a wide and busy main road with different types of housing on both sides. Upon reaching Linden Lea, the boundary of the ward runs in a southward direction. Such that Linden Lea is in Tettenhall Wightwick ward and roads that feed to the east are in Park Ward. Linden Lea and roads that feed to the west are in Tettenhall Wightwick ward and York Avenue and suchlike feed to the east are in Park ward. The boundary then runs along Broad Lane, a busy main road with housing to the south and Bantock Park to the north and then turns into the city centre along Bradmore Road and Merridale Road, both of which are busy main roads with the park to one side and housing to the other and then mainly residential into the city centre. Finally, the boundary runs along Chapel Ash a busy four lane main road leading into the city, A41.

## **Proposed Park Ward characteristics**

Park is home to a number of parks. The well-used Victorian West Park, Bradmore Park in the south of the ward including the well-known Bantock House museum. Compton Park to the west which includes the Wolverhampton Wanderers Football Club training ground. Newbridge playing fields to the north of the ward.

The ward also contains the West Park Rehabilitation Hospital serving the whole of the city.

## **Schools**

There are several primary schools that serve Park and have a catchment area:

- St. Peter's Collegiate CE Secondary School
- St Edmund's Catholic Secondary Academy
- Wolverhampton Girls' High School
- St Andrew's CE Primary School serves the north of the ward.
- West Park Primary School serves the east of the ward.
- SS Peter & Paul Catholic Primary Academy and Nursery serves the north of the ward.
- St Jude's CE Primary Academy serves the centre of the ward.
- Broadmeadow Special School (Nursery) serves the whole of the city.

In the centre of the ward is Wolverhampton Girls High School, St Peters Church of England Secondary School and St Edmund's Roman Catholic Academy.

There's also the private Wolverhampton Grammar School on Compton Road as well as the Newbridge School which is a private primary preparatory school.

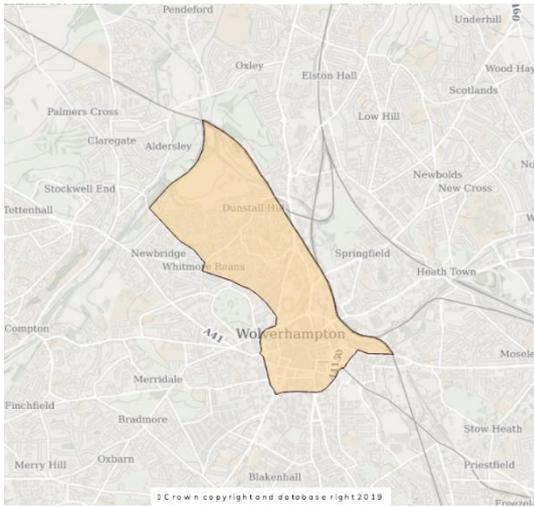

## **Places of Worship**

*Ward Councillors to provide details if required.*

## Ward: St Peters

Forecast Electorate (proposed boundary) 2026: 2813, (-11% variance)

### Proposed St Peter's Ward Boundary

St Peters is a ward taking in the whole of the city centre, inside the ring road, areas connected with the city centre and the northern part of the city. It is called St Peters after St Peters Church, which is in the city centre.

The eastern boundary of the ward follows the busy northwest coast mainline. The north eastern boundary of the ward follows firstly the Shrewsbury to Wolverhampton Mainline and then the West Coast Mainline running from Northampton into Birmingham. This is felt to be an appropriate boundary because there are very few crossing points so that communities either side of the railway track are not easily communicated with each other. So the railway line follows the main railway line right into the city into the main railway station and in a southerly direction until it reaches the Horseley Fields Road. The boundary then follows the Horseley Fields Road and Middlecross Road which are the main roads leading into and out of this part of the city centre. The boundary here takes in the estates in Albion Street and the proposed Canalside South, which are predominantly commuter/ city centre living estates with local residents using facilities to commute into Birmingham for instance the railway station, the Metro and the bus station. Therefore, it felt that this is an appropriate part to take into St Peters as part of the city centre. The growing interchange, commercial district, including proposed high rise office developments all fits in neatly with the St Peters ward.

The southern boundary of the ward then takes in the whole of the ring road until its junction on the northwest corner with Waterloo Road, a busy main road that leads into New Hampton Rd West and the New Hampton Rd East until its detour along Hordern Road. Hordern Road is an appropriate boundary because roads to the southwest are predominantly Victorian terraced housing, whereas the Farndale Estate to the north is a modern 1970s estate built on the former factory estate.

The northwest boundary of the ward then follows the Staffordshire and Worcester Canal, which together with the former railway track form Valley Park, a wide open space clearly delimitating the ward from those to the west.

### **Proposed St Peter's Ward characteristics**

The predominant land used to the North is Wolverhampton Racecourse and Open Space along the Birmingham Canal. Between Birmingham Canal and Aldersley bridge there is loads of desolate scrubland.

Much of the housing north of New Hampton Rd is densely packed with inner city Victorian terraced housing often with through streets that have road calming measures in place to reduce the amount of through traffic.

There are also a number of high-rise estates around the Boscobel Crescent area and Brockhurst Drive.

The ward is dominated by Victorian terraced housing with areas also in the west of a ward with between the wars, semis, the 1970s Farndale estate.

There is significant new build housing around Gatis Street and Dunstall Park.

The St Peter ward is also home to the Wolverhampton Wanderers at Molineux Stadium and is a key landmark in the city centre as well as the Racecourse.

The Dunstall Hill Community Centre serves the centre of the ward.

The University of Wolverhampton is located in the city centre and university accommodation running to the north of city centre along Stafford Street.

### **Schools**

There are several primary schools that serve St Peter's and have a catchment area:

- Dunstall Hill Primary School serves the
- Pinegreen Special Academy serves the whole of the city.
- Pupil Referral Unit Evergreen Academy

### **Places of Worship**

*Ward Councillors to provide details if required.*
