	NCY	7	8	9	10	11	12	13	14	Total
	Jan'21 – from Census									
	Sep'21 – from school									
4	Needs – Trends and Analysis									
	<ul style="list-style-type: none"> <li>Overall Wolverhampton school capacity is static – 0.3% increase over next 2 years</li> <li>Primary population is reducing gradually and secondary still increasing in line with the national population 'curve'</li> <li>% of EHCPs in school population has increased significantly from 3.1 to 3.5% 2019-2020 – in line with the rest of the country <u>Commissioning Comment</u> – however, the increase is likely to be inflated, possibly due in part to Covid but this should not be assumed.</li> <li>% of new EHCPs placed in mainstream schools is increasing and reducing for special schools <u>Commissioning Comment</u> – this is positive provided the right support is available in schools ie children are in the right place.</li> <li>% of CYP with SEN Support is static, in line with national picture</li> <li>50% of all new EHCPs were issued to primary age children with a further 15% to under 5s. The proportion of EHCPs is increasing in all age groups except secondary</li> <li>% of CYP eligible for FSM is increasing for both CYP with No SEN or with SEN.</li> </ul>									
			2020/21							
	% FSM CWC		1							
	Primary		51.3							
	Secondary		46.7
