3. Prize Gaming Permits
4. Club Gaming and Club Machines Permits
5. Temporary Use Notices
6. Occasional Use Notices
7. Lotteries
8. Local Authority Lotteries

PART A

1. The Licensing Objectives

In exercising most of their functions under the Gambling Act 2005 (the Act), the Council must have regard to the licensing objectives as set out in section 1 of the Act. The licensing objectives are:

- preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime
- ensuring that gambling is conducted in a fair and open way
- protecting children and other vulnerable persons from being harmed or exploited by gambling

It should be noted that the Gambling Commission has stated: “The requirement in relation to children is explicitly to protect them from being harmed or exploited by gambling”.

In carrying out its licensing functions under the Act and in accordance with section 153, the Council will, when making decisions about premises licences and temporary use notices aim to permit the use of premises for gambling in so far as it thinks it is:

- in accordance with any relevant code of practice issued by the Gambling Commission
- in accordance with any relevant guidance issued by the Gambling Commission
- reasonably consistent with the licensing objectives and
- in accordance with this statement of gambling policy

2. Introduction

City of Wolverhampton is situated in the West Midlands, which consists seven Councils in total. The Council area has a population of over 260,000 and covers an area of 26 square miles-(ONS 2020). The Council area is urban in nature and is densely populated with approximately 3,500 residents per square kilometre. The City is ethnically diverse with 36% of its residents being of BME (Black and Minority Ethnic Heritage). Furthermore ,1604% of the population in 2011 were not born in the UK. The city is religiously diverse with the second highest proportion of Sikh residents in the Country In addition to the Wolverhampton city centre, there are 3 other local centres, Bilston, Wednesfield and Tettenhall. These areas are shown in the map below.

The table below shows the breakdown by ward and type of gambling establishments in the City

Type of licence	Number issued
Bingo	5
Track Betting	3
Betting	29
Adult Gaming Centre	4
Converted Casino	3
Small Casino	1
Unlicensed family entertainment centre	1

Location	Amount and Type of Licence
St Peters	2 Bingo, 2 Track, 8 Betting, 2 Adult Gaming Centre, 1 Converted Casino, 1 Small Casino
Wednesfield South	1 Bingo, 3 Betting, 1 Adult Gaming Centre, 1 Unlicensed Family Entertainment Centre
Ettingshall	1 Bingo, 2 Converted Casino
Bilston East	1 Bingo, 6 Betting, 1 Adult Gaming Centre
East Park	1 Track
Fallings Park	2 Betting
Heath Town	1 Betting
Blakenhall	3 Betting
Bushbury South and Low Hill	2 Betting
Bushbury North	2 Betting
Merry Hill	2 Betting

The Council Plan (2019-2024) has six strategic outcomes namely:

- Children and young people get the best possible start in life
- Well skilled people working in an inclusive economy
- More good jobs and investment in our city
- Better homes for all
- Strong, resilient and healthy communities
- A vibrant, green city we can all be proud of

Effective regulation of the gambling sector is a contributor to building and sustaining strong, resilient and healthy communities.

The Council is required by the Gambling Act 2005 to publish a statement of the principles which they proposed to apply when exercising their functions. This

statement must be published at least every three years. The statement must also be reviewed from “time to time” and any amended parts re-consulted upon. The statement must be then re-published.

The Gambling Act requires that the following parties are consulted by the Council:

- the Chief Officer of Police;
- one or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority’s area;
- one or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority’s functions under the Gambling Act 2005.

3. Declaration

In producing the final statement, the Council declares that it has had regard to the licensing objectives of the Gambling Act 2005, the guidance issued by the Gambling Commission, and any responses from those consulted on the policy statement.

4. Responsible Authorities

The Council is required by regulations to state the principles it will apply in exercising its powers under Section 157(h) of the Act to designate, in writing, a body which is competent to advise the authority about the protection of children from harm. The principles are:

- the need for the body to be responsible for an area covering the whole of the licensing authority’s area; and
- the need for the body to be answerable to democratically elected persons, rather than any particular vested interest group.

In accordance with the suggestion in the Gambling Commission’s Guidance for licensing authorities, this Council designates the Children and Young People Service for this purpose.

The contact details of all the Responsible Authorities under the Gambling Act 2005 are available via the Council’s website at :

<http://www.wolverhampton.gov.uk/article/3000/Responsible-authorities-gambling>

In addition to the Responsible Authorities, the Council recognises the significant risk gambling can have on health and wellbeing and will therefore seek to consult the Director of Public Health on all applications for a gambling licence.

5. The Gambling Commission

The Gambling Commission regulates gambling in the public interest. The Commission provides independent advice to the Government about the manner in which gambling is carried out, the effects of gambling and the regulation of gambling generally. The Commission is also responsible for regulating online gambling.

The Commission has issued guidance regarding the manner in which local authorities exercise their licensing functions under the Act. They can be contacted at www.gamblingcommission.gov.uk or by post at, The Gambling Commission, Victoria Square House, Victoria Square, Birmingham, B2 4BP.

6. Interested parties

Interested parties can make representations about licence applications, or apply for a review of an existing licence. These parties are defined in the Gambling Act 2005 as follows:

“a person is an interested party in relation to an application for or in respect of a premises licence if, in the opinion of the licensing authority which issues the licence or to which the applications is made, the person

- a) lives sufficiently close to the premises to be likely to be affected by the authorised activities,
- b) has business interests that might be affected by the authorised activities, or
- c) represents persons who satisfy paragraph (a) or (b)”

The Council is required by regulations to state the principles it will apply in exercising its powers under the Gambling Act 2005 to determine whether a person is an interested party.

Each case will be decided upon its merits. This Council will not apply a rigid rule to its decision making. It will consider the examples of considerations provided in the Gambling Commission's Guidance for licensing authorities at 8.9 - 8.11. It will also consider the Gambling Commission's Guidance that "has business interests" should be given the widest possible interpretation and include partnerships, charities, faith groups and medical practices.

The Gambling Commission has recommended that the licensing authority states that interested parties include trade associations and trade unions, and residents' and tenants' associations (Gambling Commission Guidance for local authorities 8.16). This Council will not however generally view these bodies as interested parties unless they have a member who can be classed as an interested person under the terms of the Gambling Act 2005 i.e. lives sufficiently close to the premises to be likely to be affected by the activities being applied for.

Interested parties can be persons who are democratically elected such as councillors and MP's. No specific evidence of being asked to represent an interested person will be required as long as the councillor / MP represents the ward likely to be affected. Other than this however, the Council will generally require written evidence that a person/body (e.g. an advocate / relative) 'represents' someone who either lives sufficiently close to the premises to be likely to be affected by the authorised activities and/or has business interests that might be affected by the authorised activities. A letter from one of these persons, requesting the representation will be considered sufficient.

If individuals wish to approach councillors to ask them to represent their views then care should be taken that the councillors are not part of the Licensing Committee dealing with the licence application. If there are any doubts then please contact Licensing and Services, Civic Centre, St Peters Square, Wolverhampton. WV1 1RP.

7. Exchange of Information

The Council is required to include in its statement the principles to be applied by the authority in exercising its function under sections 29 and 30 of the Act with respect to the exchange of information between it and the Gambling Commission, and the functions

under section 350 of the Act with the respect to the exchange of information between it and the other persons listed in Schedule 6 to the Act.

The principle that this Council applies is that it will act in accordance with the provisions of the Gambling Act 2005 in its exchange of information which includes the provision that the Data Protection Act 2018 will not be contravened. The Council will also have regard to any Guidance issued by the Gambling Commission on this, as well as any relevant regulations issued by the Secretary of State under the powers provided in the Gambling Act 2005.

8. Enforcement

The Council is required by regulation under the Gambling Act 2005 to state the principles to be applied by the authority in exercising their functions under part 15 of the Act, with respect to the inspection of premises; and the powers under section 346 of the Act to institute criminal proceedings in respect of the offences specified.

The Council's principles are that:

It will be guided by the Gambling Commission's Guidance for licensing authorities and will endeavour to be:

- Proportionate: regulators should only intervene when necessary: remedies should be appropriate to the risk posed, and costs identified and minimised.
- Accountable: regulators must be able to justify decisions, and be subject to public scrutiny;
- Consistent: rules and standards must be joined up and implemented fairly.
- Transparent: regulators should be open, and keep regulations simple and user friendly; and
- Targeted: regulation should be focused on the problem and minimise side effects.

The Council is committed to avoiding duplication with other regulatory regimes so far as possible. However, it should be noted that it will be necessary to liaise with West Midlands Police on occasion in relation to the consideration of applications and reviews of gambling premises licenses. The Council intends to adopt a similar approach to that utilised for the Licensing Act 2003 and on this basis will seek to agree a set of protocols with the Police that will determine the way in which the two parties interact which is set out within Regulatory Services enforcement policy.

The Council recognises that some companies within the gambling industry will have a number of premises within the City. In order to ensure that any compliance issues are identified and resolved at the earliest stage, operators will be requested, where appropriate, to give the Council a single, named point of contact, who should be a senior individual, and whom the Council will contact first should any compliance issues arise.

This Council has adopted and implemented a risk-based inspection programme based on;

- The licensing objectives
- Relevant codes of practice
- Guidance issued by the Gambling Commission, in particular at Part 36
- The principles set out in this Statement of Gambling Policy

The main enforcement and compliance role for the Council in terms of the Gambling Act 05 is to ensure compliance with the premises licences and other permissions which it authorises. The Gambling Commission is the enforcement body for operating and personal licences. It is also worth noting that concerns about manufacture, supply or repair of gaming machines will not be dealt with by the Council but will be notified to the Gambling Commission.

The Council will also keep itself informed of developments as regards the work of the Better Regulation Executive in its consideration of the regulatory functions of local authorities.

9. Licensing Authority Functions

The Council is required under the Act to:

- Be responsible for the licensing of premises where gambling activities are to take place by issuing Premises Licences
- Issue Provisional Statements
- Regulate members' clubs and miner's welfare institutes who wish to undertake certain gaming activities via issuing Club Gaming Permits and/or Club Machine Permits
- Issue Club Machine Permits to Commercial Clubs
- Grant permits for the use of certain lower stake gaming machines at unlicensed Family Entertainment Centres
- Receive notifications from alcohol licensed premises (as delivered by the Licensing Act 2003) for the use of two or fewer gaming machines
- Issue Licensed Premises Gaming Machine Permits for premises licensed to sell/supply alcohol for consumption on the licensed premises, under the Licensing Act 2003, where there are more than two machines
- Register small society lotteries below prescribed thresholds
- Issue Prize Gaming Permits
- Receive and Endorse Temporary Use Notices
- Receive Occasional Use Notices
- Provide information to the Gambling Commission regarding details of licences issued (see section above on 'information exchange')
- Maintain registers of the permits and licences that are issued under these functions

It should be noted that licensing authorities will not be involved in licensing remote gambling at all. This will fall to the Gambling Commission via operating licences.

PART B

PREMISES LICENCES

1. General Principles

Premises licences will be subject to the requirements set-out in the Gambling Act 2005 and regulations, as well as specific mandatory and default conditions which are detailed in regulations issued by the Secretary of State. The Council is able to exclude default conditions. The Council also has the power to impose additional conditions or exclude conditions from the licence.

Decision Making - The Council is aware that in making decisions about Premises Licences it should aim to permit the use of premises for gambling in so far as it thinks it is:

- In accordance with any relevant code of practice issued by the Gambling Commission;
- In accordance with any relevant guidance issued by the Gambling Commission;
- Reasonably consistent with the licensing objectives; and
- In accordance with the Council's Statement of Gambling Policy.

It is appreciated that, as stated in the Gambling Commission's Guidance for licensing authorities, "moral objections to gambling are not a valid reason to reject applications for premises licences" (except in the case of a 'no casino resolution' - see section on Casinos) and also, that "unmet demand" is not a consideration for a licensing authority.

Definition of "premises" – In the Act, "premises" is defined as including "any place". Section 152 therefore prevents more than one premises licence applying to any place. But a single building could be subject to more than one premises licence, provided they are for different parts of the building and the different parts of the building can be reasonably regarded as being different premises. This approach has been taken allow large, multiple unit premises such as a pleasure park, pier, track or shopping mall to obtain discrete premises licences, where appropriate safeguards are in place. However, licensing authorities should pay particular attention if there are issues about subdivisions of a single building or plot and should ensure that mandatory conditions relating to access between premises are observed.

The Gambling Commission states in its latest guidance that Licensing authorities should take particular care in considering applications for multiple licences for a building and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular, they should be aware that entrances and exits from parts of a building covered by one or more licences should be separate and identifiable so that the separation of different premises is not compromised and that people do not 'drift' into a gambling area. The plan of the premises should clearly denote entrances and exits.

The Council takes particular note of the Gambling Commission's Guidance for Licensing authorities which states that: Licensing authorities should take particular care in considering applications for multiple licences for a building and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular they should be aware of the following:

- The third licensing objective seeks to protect children from being harmed by gambling. In practice that means not only preventing them taking part in gambling, but also preventing them from being in close proximity to gambling. Therefore premises should be configured so that children are not invited to participate in, have accidental access to or closely observe gambling where they are prohibited from participating.
- Entrances to and exits from parts of a building covered by one or more premises licences should be separate and identifiable so that the separation of different premises is not compromised and people do not 'drift' into a gambling area. In this context it should normally be possible to access the premises without going through another licensed premises or premises with a permit.
- Customers should be able to participate in the activities named on the premises licence.

The Guidance also gives a list of factors which the licensing authority should be aware of, which may include:

- Do the premises have a separate registration for business rates
- Is the premises' neighbouring premises owned by the same person or someone else?
- Can each of the premises be accessed from the street or a public passageway?
- Can the premises only be accessed from any other gambling premises?

The Council will consider these and other relevant factors in making its decision, depending on all the circumstances of the case.

Casinos

- the principal entrance to the premises must be from a street (as defined at 7.23 of the guidance)
- no entrance to a casino must be from premises that are used wholly or mainly by children and/or young persons
- no customer must be able to enter a casino directly from any other premises which holds a gambling premises licence.

Adult Gaming Centre

- No customer must be able to access the premises directly from any other licensed gambling premises.

Betting Shops

- Access must be from a street (as defined at 7.23 of the guidance) or from another premises with a betting premises licence
- No direct access from a betting shop to another premises used for the retail sale of merchandise or services. In effect there cannot be an entrance to a betting shop from a shop of any kind and you could not have a betting shop at the back of the café – the whole area would have to be licensed.

Tracks

- No customer should be able to access the premises directly from:
 - a casino
 - an adult gaming centre

Bingo Premises

- No customer must be able to access the premises directly from:
 - a casino
 - an adult gaming centre

- a betting premise, other than a track

Family Entertainment Centre

- No customer must be able to access the premises directly from:
 - a casino
 - an adult gaming centre
 - a betting premises, other than a track

Premises “ready for gambling”

The Guidance states that a licence to use premises for gambling should only be issued in relation to premises that the council can be satisfied are going to be ready to be used for gambling in the reasonably near future, consistent with the scale of building or alterations required before the premises are brought into use.

If the construction of a premises is not yet complete, or if they need alteration, or if the applicant does not yet have a right to occupy them, then an application for a provisional statement should be made instead.

In deciding whether a premises licence can be granted where there are outstanding construction or alteration works at a premises, this authority will determine applications on their merits, applying a two stage consideration process:-

- First, whether the premises ought to be permitted to be used for gambling
- Second, whether appropriate conditions can be put in place to cater for the situation that the premises are not yet in the state in which they ought to be before gambling takes place.

Applicants should note that this authority is entitled to decide that it is appropriate to grant a licence subject to conditions, but it is not obliged to grant such a licence.

More detailed examples of the circumstances in which such a licence may be granted can be found at paragraphs 7.58-7.65 of the Guidance.

Location – The Council is aware that demand issues cannot be considered with regard to the location of premises but that considerations in terms of the licensing objectives are relevant to its decision making. In accordance with the Gambling Commission’s Guidance for licensing authorities, the Council will pay particular attention to the protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder. Should any specific policy be decided upon as regards areas where gambling premises should not be located, this statement will be updated. It should be noted that any such policy does not preclude any application being made and each application will be decided on its merits, with the onus upon the applicant showing how potential concerns can be overcome.

Planning:

The Gambling Commission Guidance to licensing authorities states:

7.58 - In determining applications, the licensing authority should not take into consideration matters that are not related to gambling and the licensing objectives. One example would be the likelihood of the applicant obtaining planning permission or building regulations approval for their proposal. Licensing authorities should bear in mind that a premises licence, once it comes into effect, authorises premises to be used for gambling. Accordingly, a licence to use premises for gambling should only be issued in relation to premises that the licensing authority can be satisfied are going to be ready to be used for gambling in the reasonably near future, consistent with the scale of building

or alterations required before the premises are brought into use. (Equally, licences should only be issued where they are expected to be used for the gambling activity named on the licence). This is why the Act allows a potential operator to apply for a provisional statement if construction of the premises is not yet complete, or they need alteration, or he does not yet have a right to occupy them. Part 11 of this Guidance gives more information about provisional statements.

The Council will not take into account irrelevant matters as per the above guidance. In addition this authority notes the following excerpt from the Guidance:

7.65 - When dealing with a premises licence application for finished buildings, the licensing authority should not take into account whether those buildings have to comply with the necessary planning or building consents. Nor should fire or health and safety risks be taken into account. Those matters should be dealt with under relevant planning control, building and other regulations, and must not form part of the consideration for the premises licence. S.210 of the Act prevents licensing authorities taking into account the likelihood of the proposal by the applicant obtaining planning or building consent when considering a premises licence application. Equally, the grant of a gambling premises licence does not prejudice or prevent any action that may be appropriate under the law relating to planning or building.

Duplication with other regulatory regimes – The Council seeks to avoid any duplication with other statutory / regulatory systems where possible, including planning. The council will not consider whether a licence application is likely to be awarded planning permission or building regulations approval, in its consideration of it. It will though, listen to, and consider carefully, any concerns about conditions which are not able to be met by licensees due to planning restrictions, should such a situation arise.

When dealing with a premises licence application for finished buildings, the council will not take into account whether those buildings have to comply with the necessary planning or buildings consents. Fire or health and safety risks will not be taken into account, as these matters are dealt with under relevant planning control, buildings and other regulations and must not form part of the consideration for the premises licence.

Licensing objectives - Premises licences granted must be reasonably consistent with the licensing objectives. With regard to these objectives, the Council has considered the Gambling Commission's Guidance to licensing authorities and some comments are made below.

Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime – The Council is aware that the Gambling Commission takes a leading role in preventing gambling from being a source of crime. The Gambling Commission's Guidance does however envisage that licensing authorities should pay attention to the proposed location of gambling premises in terms of this licensing objective. Thus, where an area has known high levels of organised crime the authority will consider carefully whether gambling premises are suitable to be located there and whether conditions may be suitable such as the provision of door supervisors. The Council is aware of the distinction between disorder and nuisance and will consider factors (for example whether police assistance was required and how threatening the behaviour was to those who could see it) so as to make that distinction.

Ensuring that gambling is conducted in a fair and open way – The Council has noted that the Gambling Commission state that it generally does not expect licensing

authorities to be concerned with ensuring that gambling is conducted in a fair and open way as this will be addressed via operating and personal licences. There is however, more of a role with regard to tracks which is explained in more detail in the 'tracks' section below.

Protecting children and other vulnerable persons from being harmed or exploited by gambling – The Council has noted the Gambling Commission's Guidance (**for local authorities**) states that this objective means preventing children from taking part in gambling (as well as restriction of advertising so that gambling products are not aimed at or are, particularly attractive to children). The Council will therefore consider, as suggested in the Gambling Commission's Guidance, whether specific measures are required at particular premises, with regard to this licensing objective. Appropriate measures may include, but are not limited to,

- the supervision of entrances to prevent access by children (or known vulnerable persons)
- the supervision and monitoring of gaming machines,
- specifying the location of gaming machines
- areas where the nature of the gambling carried on in those areas should not be available to children should be segregated to exclude their entrance.

Measures are also likely to include a general requirement, in terms of the licensing of premises, in relation to the protection of children from harm and the prevention of vulnerable persons being harmed or exploited by gambling. In so doing it is anticipated that the Council will encourage, in its administration of gambling premises licensing, the promotion of organisations that seek to protect members of the public from gambling beyond their means and provide assistance to those who already gamble beyond their means.

The Council is also aware of the Gambling Commission Codes of Practice as regards this licensing objective, in relation to specific premises.

As regards the term “vulnerable persons” it is noted that the Gambling Commission does not seek to offer a definition but states that “it will for regulatory purposes assume that this group includes people who gamble more than they want to; people who gamble beyond their means; and people who may not be able to make informed or balanced decisions about gambling due to a mental impairment, alcohol or drugs.” The Council will consider this licensing objective on a case by case basis.

Conditions - Any conditions attached to licences will be proportionate and will be:

- Relevant to the need to make the proposed building suitable as a gambling facility;
- Directly related to the premises and the type of licence applied for;
- Fairly and reasonably related to the scale and type of premises; and
- Reasonable in all other respects.

Decisions upon individual conditions will be made on a case by case basis, although there will be a number of measures the Council will consider utilising should there be a perceived need, such as, the use of supervisors, appropriate signage for adult only areas etc. There are specific comments made in this regard under some of the licence types below. The Council will also expect applicants to offer their own suggestions as to way in which the licensing objectives can be met effectively.

The Council will also consider specific measures which may be required for buildings which are subject to multiple premises licences. These measures may include, but are not limited to, the supervision of entrances; segregation of gambling from non-gambling areas frequented by children and the supervision of gaming machines in non-adult gambling specific premises in order to pursue the licensing objectives. These matters are in accordance with the Gambling Commission's Guidance.

The Council will seek to ensure that where category C or above machines are available for use in premises to which children are admitted:

- All such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
- Only adults are admitted to the area where these machines are located;
- Access to the area where the machines are located is supervised;
- The area where these machines are located is arranged so that it can be observed by the staff or the licence holder; and
- At the entrance to, and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.

These considerations will apply to premises including buildings where multiple premise licences are applicable.

The Council is aware that tracks may be subject to one, or more than one, premises licence, provided each licence relates to a specified area of the track. In accordance with the Gambling Commission's Guidance, the Council will consider the impact upon the third licensing objective and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

The Council notes that there are conditions which the licensing authority cannot attach to premises licences which are:

- Any condition on the premises licence which makes it impossible to comply with an operating licence condition;
- Conditions relating to gaming machine categories, numbers, or method of operation;
- Conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated) and
- Conditions in relation to stakes, fees, winning or prizes.

Door Supervisors - The Gambling Commission advises in its Guidance to Licensing Authorities that if the Council is concerned that a premises may attract disorder or be subject to attempts at unauthorised access (for example by children and young persons) then it may require that the entrances to the premises are controlled by a door supervisor, and is entitled to impose a premises licence to this effect.

Where it is decided that supervision of entrances/machines is appropriate for particular cases, a consideration of whether these need to be SIA (Security Industry Authority) licensed or not will be necessary. It will not be automatically assumed that they need to be licensed, as the statutory requirements for different types of premises vary (as per the Guidance, Part 33).

2. Adult Gaming Centres

The Council will have specific regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to, for example, ensure that under 18 year olds do not have access to the premises.

The Council may consider measures to meet the licensing objectives such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices/signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets/helpline numbers for organisations such as GamCare.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

3. (Licensed) Family Entertainment Centres

The Council will have specific regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority, for example, that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machine areas.

The Council may consider measures to meet the licensing objectives such as:

- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self exclusion schemes
- Provision of information leaflets / helpline numbers for organisations such as Gamcare.
- Measures/Training for staff on how to deal with suspected truant school children on the premises

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

The Council will, as per the Gambling Commission's guidance, refer to the Commission's website to see any conditions that apply to operating licences covering the way in which the area containing the category C machines should be delineated. The Council will also make itself aware of any mandatory or default conditions on these premises licences, when they have been published.

4. Casinos

Casinos and competitive bidding – Small casinos

The Council was specifically empowered by Parliament to grant one premises licence for a small casino. The licence has now been granted. The Council has no power to grant further casino licences.

Licence considerations / conditions – The Council will attach conditions to casino premises licences according to the principles set out in the Gambling Commission's Guidance at paragraph 9 of part 17, bearing in mind the mandatory conditions listed in paragraph 17 of the same part of the Guidance, and the Licence Conditions and Codes of Practice published by the Gambling Commission.

Betting machines – The Council will, as per the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

5. Bingo Premises

The Council notes that the Gambling Commission's Guidance states:

18.5 Licensing authorities will need to satisfy themselves that bingo can be played in any bingo premises for which they issue a premises licence. This will be a relevant consideration where the operator of an existing bingo premises applies to vary their licence to exclude an area of the existing premises from its ambit and then applies for a new premises licence, or multiple licences, for that or those excluded areas.

18.8 - S.172(7), as amended, provides that the holder of a bingo premises licence may make available for use a number of category B gaming machines not exceeding 20% of the total number of gaming machines on the premises. For example, a premises with a total of 25 gaming machines available for use can make five or fewer category B3 gaming machines available on that premises. Premises that were licensed before 13 July 2011 are entitled to make available eight category B gaming machines, or 20% of the total number of gaming machines, whichever is the greater. There are no restrictions on the number of category C or D machines that can be made available. Regulations state that category B machines at bingo premises are restricted to sub-category B3 (SI 2007/2158: [Categories of Gaming Machine Regulations 2007 \(opens in new tab\)](#)) (but not B3A) and B4 machines. Licensing authorities should ensure that gambling machines are made available for use in a manner consistent with our guidance within Part 16. For the purpose of calculating the category B machine entitlement in gambling premises, gaming machines should only be counted if they can be played simultaneously by different players without physical hindrance. This includes tablets.

6. Betting Premises

Betting machines – The Council will, in accordance with the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

7. Tracks

S.353 of the Act defines a track as a horse racecourse, greyhound track or other premises on any part of which a race or other sporting event takes place or is intended to take place.

The Act does not give a list of premises that are officially recognised as 'tracks' but there are a number of venues where sporting events do or could take place, and accordingly could accommodate the provision of betting facilities. Examples of tracks include:

- a horse racecourse (referred to in this guidance as 'racecourses')
- a greyhound track
- a point-to-point horserace meeting
- football, cricket and rugby grounds
- an athletics stadium
- a golf course
- venues hosting darts, bowls, or snooker tournaments
- a premises staging boxing matches
- a section of river hosting a fishing competition
- a motor racing event.

Gaming machines - Where the applicant holds a pool betting operating licence and is going to use the entitlement to four gaming machines, machines (other than category D machines) should be located in areas from which children are excluded.

Betting machines – The Council will, as per part 6 of the Gambling Commission's Guidance, take into account the size of the premises and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator proposes to offer.

Applications and plans

The Gambling Act (s51) requires applicants to submit plans of the premises with their application, in order to ensure that the licensing authority has the necessary information to make an informed judgement about whether the premises are fit for gambling. The plan will also be used for the Council to plan future premises inspection activity.

Plans for tracks do not need to be in a particular scale, but should be drawn to scale and should be sufficiently detailed to include the information required by regulations.

Some tracks may be situated on agricultural land where the perimeter is not defined by virtue of an outer wall or fence, such as point-to-point racetracks. In such instances,

where an entry fee is levied, track premises licence holders may erect temporary structures to restrict access to premises.

In the rare cases where the outer perimeter cannot be defined, it is likely that the track in question will not be specifically designed for the frequent holding of sporting events or races. In such cases betting facilities may be better provided through occasional use notices where the boundary premises do not need to be defined.

The Council appreciates that it is sometimes difficult to define the precise location of betting areas on tracks. The precise location of where betting facilities are provided is not required to be shown on track plans, both by virtue of the fact that betting is permitted anywhere on the premises and because of the difficulties associated with pinpointing exact locations for some types of track. Applicants should provide sufficient information that the council can be satisfied that the plan indicates the main areas where betting might take place. For racecourses in particular, any betting areas subject to the "five times rule" (commonly known as betting rings) must be indicated on the plan.

8. Travelling Fairs

The Council is responsible for deciding whether, where category D gaming machines and/or equal chance prize gaming without a permit is to be made available for use at travelling fairs, the statutory requirement, that the facilities for gambling amount to no more than an ancillary amusement at the fair, is met.

The Council will consider whether the applicant falls within the statutory definition of a travelling fair. Travelling fairs do not require any permit to provide gaming machines but must comply with legal requirements about the way the machine operates. They may provide an unlimited number of category D gaming machines provided that facilities for gambling amount to no more than an ancillary amusement at the fair.

It has been noted that the 27-day statutory maximum for the land being used as a fair, applies on a per calendar year basis, and that it applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. The Council will work with its neighbouring authorities to ensure that land which crosses our boundaries is monitored so that the statutory limits are not exceeded.

9. Provisional Statements

Developers may wish to apply to the council for provisional statements before entering into a contract to buy or lease property or land to judge whether a development is worth taking forward in light of the need to obtain a premises licence. There is no need for the applicant to hold an operating licence in order to apply for a provisional statement.

S204 of the Gambling Act provides for a person to make an application to the licensing authority for a provisional statement in respect of premises that he or she:

- expects to be constructed;
- expects to be altered; or
- expects to acquire a right to occupy.

The process for considering an application for a provisional statement is the same as that for a premises licence application. The applicant is obliged to give notice of the application in the same way as applying for a premises licence. Responsible authorities and interested parties may make representations and there are rights of appeal.

In contrast to the premises licence application, the applicant does not have to hold or have applied for an operating licence from the Gambling Commission and they do not have to have a right to occupy the premises in respect of which their provisional application is made.

The holder of a provisional statement may then apply for a premises licence once the premises are constructed, altered or acquired. The Council will be constrained in the matters it can consider when determining the premises licence application, and in terms of representations about premises licence applications that follow the grant of a provisional statement, no further representations from relevant authorities or interested parties can be taken into account unless:

- they concern matters which could not have been addressed at the provisional statement stage, or
- they reflect a change in the applicant's circumstances.

In addition, the council may refuse the premises licence (or grant it on terms different to those attached to the provisional statement) only by reference to matters:

- which could not have been raised by objectors at the provisional statement stage;
- which in the authority's opinion reflect a change in the operator's circumstances; or
- where the premises has not been constructed in accordance with the plan submitted with the application. This must be a substantial change to the plan and this licensing authority notes that it can discuss any concerns it has with the applicant before making a decision.

10. Premises Reviews

Requests for a review of a premises licence can be made by interested parties or responsible authorities; however it is for the council to decide whether the review is to be carried out. This will be on the basis of whether the request for the review is relevant to the matters listed below;

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with the Council's Statement of Gambling Policy.

The request for the review will also be subject to the consideration by the council as to whether the request is frivolous, vexatious, or whether it will certainly not cause this authority to wish to alter/revoke/suspend the licence, or whether it is substantially the same as previous representations or requests for review.

The Council can also initiate a review of a particular premises licence, or a particular class of premises licence, on the basis of any reason which it thinks is appropriate.

Once a valid application for a review has been received by the council, representations can be made by responsible authorities and interested parties during a 28 day period. This period begins 7 days after the application was received by the licensing authority, who will publish notice of the application within 7 days of receipt.

The council must carry out the review as soon as possible after the 28 day period for making representations has passed.

The purpose of the review will be to determine whether the council should take any action in relation to the licence. If action is justified, the options open to the licensing authority are:-

- (a) add, remove or amend a licence condition imposed by the licensing authority;
- (b) exclude a default condition imposed by the Secretary of State or Scottish Ministers (e.g. opening hours) or remove or amend such an exclusion;
- (c) suspend the premises licence for a period not exceeding three months; and
- (d) revoke the premises licence.

In determining what action, if any, should be taken following a review, the council must have regard to the principles set out in section 153 of the Act, as well as any relevant representations.

In particular, the licensing authority may also initiate a review of a premises licence on the grounds that a premises licence holder has not provided facilities for gambling at the premises. This is to prevent people from applying for licences in a speculative manner without intending to use them.

Once the review has been completed, the council must, as soon as possible, notify its decision to:

- the licence holder
- the applicant for review (if any)
- the Commission
- any person who made representations
- the chief officer of police or chief constable; and
- Her Majesty's Commissioners for Revenue and Customs

PART C

Permits / Temporary & Occasional Use Notices

1. Unlicensed Family Entertainment Centre gaming machine permits (Statement of Principles on Permits - Schedule 10 paragraph 7)

Where a premises does not hold a premises licence but wishes to provide gaming machines, it may apply to the Council for a gaming machine permit. It should be noted that the applicant must show that the premise will be wholly or mainly used for making gaming machines available for use (Section 238).

The Gambling Act 2005 states that the Council may prepare a 'Statement of Principles' that they propose to consider in determining the suitability of an applicant for a permit and in preparing this statement, and for considering applications, it need not (but may) have regard to the licensing objectives and shall have regard to any relevant guidance issued by the Gambling Commission ~~under section 2.5.~~ The Gambling Commission's Guidance to licensing authorities also states: In its statement of policy, a licensing authority may include a statement of principles that it proposes to apply when exercising its functions in considering applications for permits. In particular it may want to set out the matters that it will take into account in determining the suitability of the applicant. Given that the premises is likely to appeal particularly to children and young persons, licensing authorities may wish to give weight to matters relating to protection of children from being harmed or exploited by gambling and to ensure that staff supervision adequately reflects the level of risk to this group. Licensing authorities are also encouraged to also specify in their statement of policy that a plan for the uFEC must be submitted. Guidance also states: an application for a permit may be granted only if the licensing authority is satisfied that the premises will be used as an unlicensed Family Entertainment Centre, and if the chief officer of police has been consulted on the application. On this basis the Council will ask applicants to demonstrate

- a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed Family Entertainment Centres
- that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act); and
- that staff are trained to have a full understanding of the maximum stakes and prizes.

It should be noted that a licensing authority cannot attach conditions to this type of permit.

Statement of Principles

The Council will expect applicants to show that there are policies and procedures in place to protect children from harm. Harm in this context is not limited to harm from gambling but includes wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, they may include appropriate measures and training for staff as regards suspected truant school children on the premises, measures and training covering how staff would deal with unsupervised very young children being on the premises, or children causing perceived problems on or around the premise. The Council will require applicants to be able to demonstrate a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed Family Entertainment Centres; that the applicant has no

relevant convictions (those that are set out in Schedule 7 of the Act); and that staff are trained to have a full understanding of the maximum stakes and prizes.

A full copy of the statement of principles is available on request to:

2. (Alcohol) Licensed Premises Gaming Machine Permits

There is provision in the Act for premises licensed to sell alcohol for consumption on the premises to automatically have two gaming machines, of categories C and/or D. The premises merely need to notify the Council of them.

The Council can remove this automatic authorisation in respect of any particular premise, if:

- provision of machines is not reasonably consistent with the pursuit of the licensing objectives;
- gaming has taken place on the premises that breaches a condition of section 282 of the Gambling Act (i.e. that written notice has been provided to the licensing authority, that a fee has been provided and that any relevant code of practice issued by the Gambling Commission about the location and operation of the machine has been complied with);
- the premises are mainly used for gaming; or
- an offence under the Gambling Act has been committed on the premises.

Permit: 3 or more machines

If a premises wishes to have more than 2 machines, then it will need to apply for a permit from the Council. The Council will then consider the application based upon the licensing objectives and any guidance issued by the Gambling Commission. The Commission also states that the Council should also consider other relevant matters. Such matters will be decided on a case by case basis but generally the Council will have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machines. These measures may include the adult machines being in sight of the bar, or in the sight of staff that will monitor the machines to ensure they are not being used by those under 18.

Notices and signage may also be help. As regards the protection of vulnerable persons applicants may wish to consider the provision of information leaflets and helpline numbers for organisations such as Gamcare.

The Council recognises that some alcohol licensed premises may apply for a premises licence for their non-alcohol licensed areas. Any such application would most likely need to be applied for, and dealt with, as an Adult Gaming Centre premises licence.

It should also be noted that the Council can decide to grant the application with a smaller number of machines and/or a different category of machines than that applied for. Conditions, other than these, cannot be attached.

Applicants should also note that the holder of a permit must comply with any Code of Practice issued by the Gambling Commission regarding the location and operation of gaming machines.

3. Prize Gaming Permits

The Gambling Act 2005 states that the Council may “prepare a Statement of Principles that they propose to apply in exercising their functions under this Schedule” which “may, in particular, specify matters that the licensing authority proposes to consider in determining the suitability of the applicant for a permit”.

Accordingly, the Council has prepared a Statement of Principles which requires the applicant to set out the types of gaming that he or she is intending to offer. The applicant should be able to demonstrate:

- that they understand the limits to stakes and prizes that are set out in regulations;
- and, that the gaming offered is within the law.
- Clear policies that outline the steps to be taken to protect children from harm

In making its decision on an application for this permit the Council does not need to (but may) have regard to the licensing objectives but must have regard to any Gambling Commission guidance.

It should be noted that the Council cannot and therefore will not attach conditions to the permit. However where facilities are provided in an adult gaming centre, a licensed family centre or for equal chance prize gaming, section 293 of the Gaming Act 2005 provides conditions with which the permit holder must comply. These are:

- the limits on participation fees, as set out in regulations, must be complied with;
- all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day. The game must be played and completed on the day the chances are allocated; and the result of the game must be made public in the premises on the day that it is played;
- the prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize); and
- participation in the gaming must not entitle the player to take part in any other gambling.

4. Club Gaming and Club Machines Permits

Members Clubs and Miners’ Welfare Institutes (but not Commercial Clubs) may apply for a Club Gaming Permit or a Club Gaming machines permit. The Club Gaming Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D), equal chance gaming and games of chance as set-out in forthcoming regulations. A Club Gaming machine permit will enable the premises to provide gaming machines (3 machines of categories B, C or D).

Gambling Commission Guidance states: "Members clubs must have at least 25 members and be established and conducted “wholly or mainly” for purposes other than

gaming, unless the gaming is permitted by separate regulations. The Secretary of State has made regulation and these cover bridge and whist clubs, which replicate(s) the position under the Gaming Act 1968. A members' club must be permanent in nature, not established to make commercial profit, and controlled by its members equally. Examples include working men's clubs, branches of Royal British Legion and clubs with political affiliations."

The Commission Guidance also states that "licensing authorities may only refuse an application on the grounds that:

- (a) the applicant does not fulfil the requirements for a members' or commercial club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied;
- (b) the applicant's premises are used wholly or mainly by children and/or young persons;
- (c) an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
- (d) a permit held by the applicant has been cancelled in the previous ten years; or
- (e) an objection has been lodged by the Commission or the police."

There is also a 'fast-track' procedure available under the Act for premises which hold a Club Premises Certificate under the Licensing Act 2003 (Schedule 12 Paragraph 10). As the Gambling Commission Guidance to licensing authorities states: "under the fast-track procedure there is no opportunity for objections to be made by the Commission or the police, and the grounds upon which the Council can refuse a permit are reduced. And "The grounds on which an application under the process may be refused are:

- (a) that the club is established primarily for gaming, other than gaming prescribed under schedule 12;
- (b) that in addition to the prescribed gaming, the applicant provides facilities for other gaming; or
- (c) that a club gaming permit or club machine permit issued to the applicant in the last ten years has been cancelled.

There are statutory conditions on club gaming permits that no child uses a category B or C machine on the premises and that the holder complies with any relevant provision of a code of practice about the location and operation of gaming machines. The Council will enforce these statutory conditions.

5. Temporary Use Notices

Temporary use notice(s) allow the use of premises for gambling, where there is no premises licence, but where a gambling operator wishes to use the premises temporarily for providing facilities for gambling. Premises that might be suitable for a temporary use notice according to the gambling commission would include hotels, conference centres and sporting venues.

The council can only grant a Temporary Use Notice to a person or company holding a relevant operating licence, i.e. a non-remote casino operating licence.

The Secretary of State has the power to determine what form of gambling can be authorised by Temporary Use Notices, and at the time of writing this Statement the relevant regulations (SI no 3157: The Gambling Act 2005 (Temporary Use Notices) Regulations 2007) state that Temporary Use Notices can only be used to permit the

provision of facilities or equal chance gaming, where the gaming is intended to produce a single winner, which in practice means poker tournaments.

There are a number of statutory limits as regards Temporary Use Notices. The meaning of "premises" in Part 8 of the Act is discussed in Part 7 of the Gambling Commission Guidance to Licensing Authorities. As with "premises", the definition of "a set of premises" will be a question of fact in the particular circumstances of each notice that is given. In the Act "premises" is defined as including "any place".

In considering whether a place falls within the definition of "a set of premises", the licensing authority needs to look at, amongst other things, the ownership/occupation and control of the premises.

6. Occasional Use Notices

The council has very little discretion as regards these notices aside from ensuring that the statutory limit of 8 days in a calendar year is not exceeded. The council will though consider the definition of a 'track' and whether the applicant is permitted to avail him/herself of the notice.

The Council will though consider the definition of a 'track' and whether applicant is permitted to avail him/herself of the notice.

- Betting on a track will be permitted by an occasional use notice providing it is for 8 days or less in a calendar year. The calendar year will commence on the 1st January.
- The notice must be served by a person who is responsible for the administration of events on the track, or by an occupier of the track.
- A notice must be served on the Council and copied to the Chief of Police.
- The notice must specify the day on which it has effect, and may be given in relation to consecutive days providing the overall limit of 8 days is not exceeded in a calendar year.
- The Council will maintain a record of the number of notices served in a calendar year to ensure the limit of 8 days is not exceeded.
- No gaming machines may be provided

7. Lotteries

All lotteries are unlawful unless they are run in accordance with an operating licence issued by the Gambling Commission or it is an 'exempt' lottery as defined by the Act. One exemption is in respect of what are termed 'small society lotteries'. The Council will be responsible for registering these small lotteries.

A society will be allowed to register with the Council if it is a 'non commercial' lottery i.e. it is established and conducted:

- for charitable purposes,
- for the purpose of enabling participation in, or of supporting, sporting, athletic or cultural activities or
- for any other non-commercial purpose other than for private gain

The Council will maintain a register of small society lotteries which it has registered.

8. Local Authority Lotteries

Under the terms of the Act Council's can, if they elect to do so, apply to the Gambling Commission for a licence to operate a Local Authority Lottery, the proceeds of which should be utilised for the benefit of the local community.

DRAFT
