1 Introduction

The purpose of this report is to bring the Audit and Risk Committee up to date with the progress made against the delivery of the 2022 2023 internal audit plan.

The Audit and Risk Committee has a responsibility to review the effectiveness of the system of internal controls and also to monitor arrangements in place relating to corporate governance and risk management arrangements. Internal audit is an assurance function which provides an independent and objective opinion to the organisation on the control environment, comprising risk management, control, and governance. This work update provides the committee with information on recent audit work that has been carried out to assist them in discharging their responsibility by giving the necessary assurances on the system of internal control.

The information included in this progress report will feed into, and inform, our overall opinion in our internal audit annual report issued at the year end. Where appropriate each report we issue during the year is given an overall opinion based on the following criteria:

No Assurance	Limited	Satisfactory	Substantial
Immediate action is required to address fundamental gaps, weaknesses or non-compliance identified. The system of governance, risk management and control is inadequate to effectively manage risks to the achievement of objectives in the area audited.	Significant gaps, weaknesses or non-compliance were identified. Improvement is required to the system of governance, risk management and control to effectively manage risks to the achievement of objectives in the area audited.	There is a generally sound system of governance, risk management and control in place. Some issues, non-compliance or scope for improvement were identified which may put at risk the achievement of objectives in the area audited.	A sound system of governance, risk management and control exists, with internal controls operating effectively and being consistently applied to support the achievement of objectives in the area audited.

3 *On-going assurance where reports are not issued*

It is a requirement of the Internal Audit Charter that Internal Audit will remain sufficiently independent of the activities that it audits to enable auditors to perform their duties in a manner which facilitates impartial and effective professional judgements and recommendations. Objectivity is presumed to be impaired when individual auditors review any activity in which they have previously had operational responsibility. If individual auditors are extensively consulted during system, policy or procedure development, and independence could be seen as being compromised, or if they have had previous operational roles, they will be precluded from reviewing and making comments during routine or future audits, for the remainder of that financial year and for the following financial year after their involvement. Therefore, should any reviews be conducted on the below, then they will be led by another member of the audit team where appropriate.

4 *Counter Fraud Activities*

The Audit Service's team investigate all allegations of suspected fraudulent activity, during the year. Details of these will be presented to the Audit and Risk Committee in a separate report, along with details of initiatives put in place in order to both raise awareness of, and tackle fraud across the Council.

5 *Audit reviews underway*

There were a number of reviews underway as at 30 June 2022 and these will be reported upon in future update reports.

6 *Summary of issues from Q1 reviews*

Key Financial Systems Reviews

We undertake annual reviews of all of the Council's key financial systems, in quarter 1 we completed the following reviews:

Accounts Payable

This review covered transactions that took place during 2021/22. The review was given a substantial assurance opinion and only identified one green issue around incomplete records for the recording of faster payments.

Payroll

This review covered payroll runs processed during 2021/22. Two reports were produced for this review, one covering HR issues and another capturing specific payroll issues. Overall the review was given a substantial assurance opinion, with the following issues identified:

- Exception reports were not being retained in order to show that they were being reviewed and actioned by payroll.
- From a sample of cases tested, personnel files were not always being created on IDOX for new starters. Also, where files were in place, documents in respect of new starters, leavers, and contract changes were not always being saved.
- For a sample of leavers, the calculations for Pay in Lieu of Leave could not always be confirmed as there was no supporting evidence on files to confirm the hours to be paid.

Fixed Assets

This review covered the valuation and management of assets for 2021/22. The review was given a substantial assurance opinion and no significant issues were identified which required a recommendation.

7 *Follow-up of previous recommendations*

We continue to monitor the implementation of previous key recommendations, and any major issues of concern relating to their non-implementation, will be reported back to the Audit and Risk Committee.
