**Re: Licence Application-CUTE COFFEE LOUNGE School Road**  
**Wolverhampton**

Dear Sirs/Madam

The space inside.

It has been brought to my attention that the Coffee Lounge opposite my house has applied for a Drinks and Music licence.

The Coffee Shop is in a residential area with families who have young children. The lounge is very small and is very cramped with six tables and relies on outside seating to augment its seating capacity.

With such a small internal airier does it mean the musicians will be playing outside? If they play inside it would reduce the seating area even more; It seems impossible that doors will not be open to allow people dining outside to hear the music. This would mean that residents would also have to listen to the music whether it was to their taste or not.

We have already had a taste of the problem on the opening night when you could not even hear your own TV for the loud music.

Previous to the development of the property it was a pub (The Bird in Hand) and in the summer on hot evenings the doors were open and this was always a problem.

It is not appropriate to have licenced premises open until 1pm in a built up area. Not everyone wants to go to bed after 1 am. This will be two nights every week and could make the local residents life hell.

I do not think it is appropriate to have music blasting out from 10pm until 1am. Customers will not leave then, but will finish their drinks and stand around talking before driving away causing further disruption.

I trust you will consider my objections.

Yours faithfully

P A Bell
