**Performance Report**

**November 2016**

(data as at September 2016)

## Key Points to Note

### Demographics

A considerably lower proportion of LAC are from BME backgrounds compared to the Wolverhampton CYP population.

The number of Looked After Children continues to decrease although considerable further reduction is required to bring Wolverhampton in line with our comparators.

### Placements

In-house Foster Carers trend data shows that numbers of children placed with in-house foster carers has increased in the past month after a steady decline since May 2016.

The proportion of LAC placed more than 20 miles from home, has fallen to 13%.

The indicators that look at placement stability have remained static in the month against a backdrop of reducing LAC numbers and increased adoptions. However, stability generally continues to show positive results and demonstrates that Looked After Children in Wolverhampton benefit from stable placements.

### Routes into Care and Ofsted Ratings

This data shows which proportion of LAC were known to children's services in the 30 days prior to becoming looked after and the proportion of LAC that are asylum seekers and UASC (unaccompanied asylum seekers). Please note that children are classed as CiN if they are in the process of being assessed and may not have been CiN for very long or the subject of formal CiN plans. On-going work is being undertaken to identify how many children were also known to Early Help services and it is anticipated that this will be available by the end of the year.

The report now also shows the number of children placed in children's homes and the Ofsted ratings of those homes - of the 36 children currently placed in children's homes, 29 (80%) are in homes that are rated good or outstanding.

### Assessments and Reviews

Assessments and Reviews of Looked After Children in Wolverhampton remain generally up to date although performance has dropped in the past few months to 94%. The percentage of children that participated in their reviews remains at 93% which is the same as the year out turn 2015/16 result of 93%.

### Education

The 2015 KS2 results show that performance of Wolverhampton LAC has deteriorated compared with 2014 across reading, writing and maths. 2015 comparator data has now been updated and shows that Wolverhampton performed slightly worse in KS4 but better in GCSEs.

GCSE performance is more positive compared with last years out-turn - with 20% of LAC achieving 5 GCSEs grade A-C including English and Maths compared to 17% last year.

Please noted that small numbers can make these measurements volatile. For further information about the education attainment of LAC in Wolverhampton please refer to the Virtual School Head teacher annual report.

**Health**

The percentage of children with up to date dental checks was 85% at the end of September. This result remains significantly higher than the 60% of children in the general Wolverhampton population that have seen a dentist in the past 2 years which is falling.

The percentage of health checks that are up to date is 87% at the end of September, a slight decrease on the year end out-turn 2015/16 of 88%. The majority of children who do not have up to date health checks are placed outside of the city.

**Leaving Care**

**Adoption** - Adoption timeliness in 2016/17 continue to perform below national targets. There have been 20 adoptions so far in 2016/17, 68% of being within timescales.

The adoption pipeline shows that there are currently 70 children with a plan of adoption, 38 of which have placement orders or are currently placed for adoption. The placements and plans for some of the children are currently being reviewed and not all of the children will be adopted.

62 children were adopted in 15/16 compared to 51 in the previous year. This is extremely positive.

**Care Leavers** - The percentage of Care Leavers in Employment Education and Training cohort has changed to include all children and young adults who turn 17 to 21 in the year. At the end of September 53% of 17-21 year olds were in Education, Employment or Training. NALM (not available for the labour market) data has now been included and shows that out of 145 care leavers in the cohort, 81% of care leavers are available for work with 19% (36 young people) not available due to pregnancy or young motherhood, illness or disability or because they are in custody.

Work continues in this area to ensure that education, employment and training information is recorded and updated.

The proportion of care leavers currently deemed to be in suitable accommodation is also included and shows that 90% of the cohort are currently in suitable accommodation.

## Demographics

58167 children aged 0-17 live in Wolverhampton  
22.9% of the total population

England 2015	64%	71%	61%	52%		13.8%

**PLEASE NOTE:** Small numbers in the cohort reaching each key stage can cause results to be volatile making comparison difficult.

National results show that looked after children reaching KS2 level 4 in Maths, Reading and Writing in 2015 performed worse than in 2014. However, performance in GCSE's was better.

Detailed analysis of LAC educational performance was presented to the Panel via the Virtual School Head teacher report. Please note that there is some discrepancies when nationally published data is compared with locally held data - it is the national data that is presented here.

West Midlands - 4.20%  
Statistical Neighbours - 4.58%  
England - 4.70%

There has been a slight decrease in the number of PEP's in the month however both indicators still show a strong result.

**FURTHER DEVELOPMENT:** Work is continuing to develop a detailed, local, virtual schools report. As that work progresses, further information will be reported here.

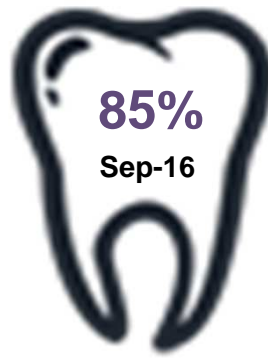

## LAC Health

60% of children in the  
Wolverhampton Local Authority  
Area have seen a dentist in the last  
two years

### Dental Checks

2015/16 Out-turn = 89%

2014/15 Out-turn = 81%

### Health Checks

2015/16 Out-turn = 88%

2014/15 Out-turn = 82%

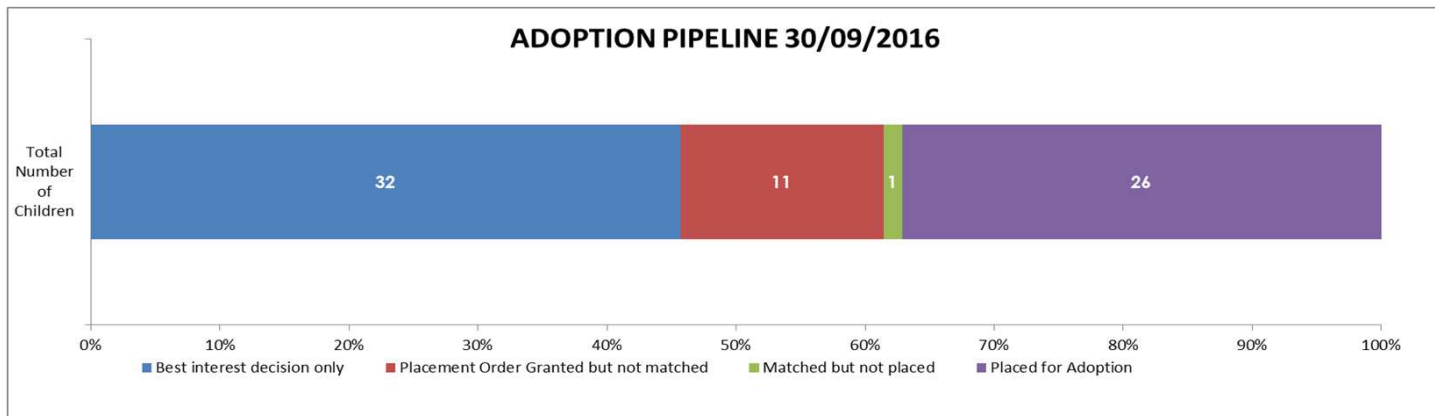

There has again been a slight decrease  
in performance since year out turn  
however results in this area remain  
strong as a result of improved working  
with the CCG and RWT

## Adoptions

### Adoption Scorecard Results

The adoption scorecard is calculated using results and performance over a three year period

**A1 - Average time between a child entering care and moving in with their adoptive family**

**620 Days**

3 Year avg 2014-2017

(734 days 2012-2015)

Target - 428 days

**A2 - Average time between receiving court authority to place and finding a match**

**243 Days**

3 year avg 2014-2017

Target - 121 days

**A10 - Average time between a child entering care and moving in with their adoptive family (stopped at point of fostering for foster carers adoptions)**

**474 Days**

3 year avg 2014-2017

(488 days 2012-2015)

Target - 428 days

#### Single year performance (2015/16 - Provisional)

**A1** - 652 days with 64% of children adopted within timescales

**A2** - 238 days

**A10** - 518 days

#### Single year performance (2016/17 as at 31st July)

**A1** - 534 days with 68% of children adopted within timescales

**A2** - 271 days

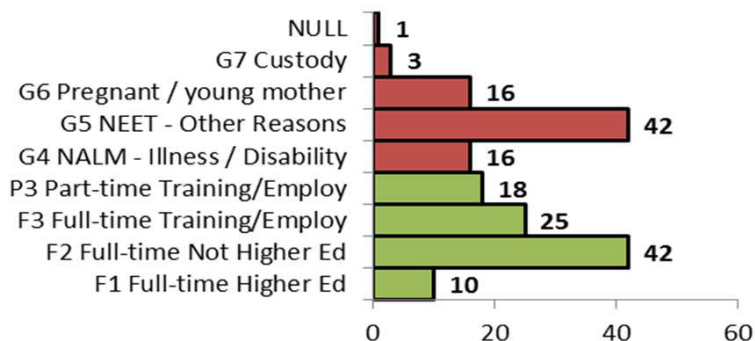

**A10** - 502 days

The adoption scorecards for 2012-15 were published in March 2016. Wolverhampton were once again rated 'double red' in the two key indicators, however, performance around adopting hard to place children including those over the age of 5 and from BME backgrounds continues to be better than performance nationally.

Detailed analysis of the results has been undertaken and is available.
