Subject: Application rejection

I would like to object to the license application submitted by Sweet As Ya Like 46C Queen Street City Centre

The reason being this will add to the current problems of crime and disorder in the city centre. We personal have had problems with drunk people in the city centre causing thousands of pounds worth of damages to our premises with broken windows. Not only is it difficult to get them repaired it is also stressful with the amount of money it costs.

I don't think the premises is suitable to serve alcohol and nor does it have the correct provisions in place.

There are enough places on queen street currently serving alcohol another one is not needed to add to the rate of drunk people causing trouble.

Regards

Miss. Satveer Kaur
