

Question framework for consultation sessions

Service elements	Is this proposed model the right approach, if not why not?	How would integration work in practice?	Is this different for Young people, if so how?	Is there anything we have not considered/ missed?
CaSH & GUM including identified spokes				
Addressing the needs of vulnerable groups				
Training, competencies & driving quality across the system				
HIV prevention				
Community outreach services and working with key partners				
GPs and Pharmacies				
Post Partum care, particularly to vulnerable groups
