1 Introduction

The counter fraud agenda is one that continues to hold significant prominence from Central Government who are promoting a wide range of counter fraud activities. The purpose of this report is to bring the Audit and Risk Committee up to date on the counter-fraud activities undertaken by the Counter Fraud Unit within Audit Services.

The Council is committed to creating and maintaining an environment where fraud, corruption and bribery will not be tolerated. This message is made clear within the Authority's Anti-Fraud and Corruption Policy, which states: "The Council operates a zero tolerance on fraud, corruption and bribery whereby all instances will be investigated, and the perpetrator(s) will be dealt with in accordance with established policies. Action will be taken to recover all monies stolen from the Council."

2 The Counter Fraud Team

The Counter Fraud Team, which sits within Audit Services, is continuing to develop and lead in raising fraud awareness across the Council and in promoting an anti-fraud culture. The team carries out investigations into areas of suspected or reported fraudulent activity and organises a series of Council wide pro-active fraud activities, including the targeted testing of areas open to the potential of fraudulent activity. The team maintains the Council's fraud risk register, implements the counter fraud plan and leads on the Cabinet Office's National Fraud Initiative (NFI) exercise.

The team also provide a tenancy fraud investigation service to Wolverhampton Homes under a service level agreement.

During the Covid-19 Pandemic members of the Counter Fraud Team in conjunction with colleagues from Finance, Revenues and Benefits, and Audit have supported the due diligence activities undertaken before and after the award of the various support grants introduced by Central Government to ensure the risk of fraud was minimised.

Counter Fraud Plan

The latest status of progress against the counter fraud plan is shown at Appendix 1

Fraud Risk Register

The Counter Fraud Team maintains the Council's fraud risk register. The register is used to help identify areas for testing and to inform future audit assurance plans by focusing on the areas with the 'highest' risk of fraud. The latest fraud risk register is included at Appendix 2.

CIPFA's Annual Fraud and Corruption Tracker Report 2020

During late 2020 the Council's Counter Fraud Unit submitted the completed annual fraud and error survey response to the Chartered Institute of Public Finance Accountants (CIPFA's). The information contained in the survey was used to produce the National Fraud and Corruption Tracker (CFaCT) report (Appendix 3).

The government estimates fraud costs the public sector at least £40.3bn annually, with £7.3bn of the total being lost in local government.

The CFaCT report identified that in 2019-2020, an estimated 47,000 fraud cases worth £239.4m were detected or prevented by local authorities. Council Tax fraud, such as falsely claiming the single occupancy discount or receiving Council Tax Reduction, was

the most common fraud type with 30,622 cases detected with a total value of £35.9m; disabled parking Blue Badge fraud was second with 7,899 cases and a total value of £6.4m; Housing scams were third with 4,991 cases but were highest by value of fraud at £122.4m, and Business Rates fraud remained the fourth largest area at risk of fraud with 476 cases and a total value of £6.2m.

The report highlights a number of emerging risks. including 460 Adult Social Care cases worth £8.2m, this includes direct payment fraud.

Procurement fraud, such as overcharging and falsely billing for goods and services, is seen as one of the greatest areas of fraud risk but is identified as complex and difficult to detect. The number of procurement fraud cases was 87 with an estimated value of £15m.

The CFaCT report covers the pre-pandemic period but did also gather some initial data regarding the impact of Covid-19 on fraudulent behaviours in local government. These included; claiming Business Support grants from non-eligible empty properties, not being able to complete onsite home visits to accurately assess care needs when determining the level of benefit support and payments, increased mandate fraud attempts due to the relaxation of controls while staff are working from home.

CIPFA recommend that local authorities remain vigilant and determined in identifying and preventing fraud and raising the awareness of fraud risk across all areas of service delivery and all levels of the organisation. In addition, public sector organisations should work together to share information and explore innovative ways to use data. The Council has already identified these issues in the Fraud Risk Register (Appendix 2) with Personal Budgets, Housing Tenancy and Council Tax identified as red risks. The Counter Fraud Plan (Appendix 1) provides more details of the initiatives planned to address these issues and to encourage the sharing of data with other local authorities.

The key survey results for Wolverhampton were:

Comparison of the last two Surveys

| | 2018/2019 2 | | 20 | 019/2020 | |

| Theft | 2 | £24,500 | - | - | |
| Insurance | - | - | 1 | £1,000 | |

*The savings figures for tenancy fraud are based on methodology and calculations produced by the Cabinet Office in support of the National Fraud Initiative. The figures include:

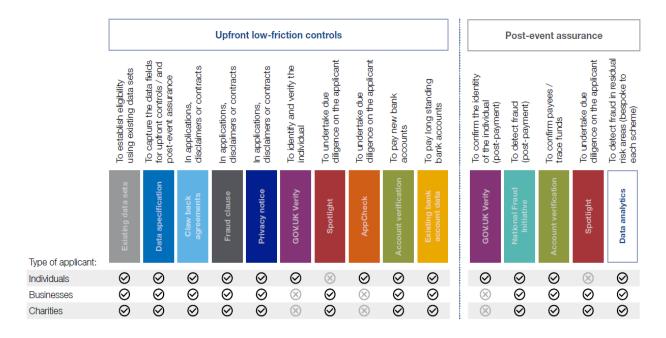

- Social housing tenancy fraud Notional £93,000
- Social housing application fraud Notional £36,000
- Right to Buy fraud Notional £65,000

Note 1 - The seven 'Housing Tenancy Other' cases in 2018/19 comprised five at £93,000 and two at £36,000, whereas all the 2019/20 cases came within £36,000.

Action is taken to attempt to recover the value of the fraud and/or error where appropriate.

Covid-19 Business Support Grants

To support Local Authorities in the administration of these grants, the Department for Energy & Industrial Strategy (BEIS) Counter Fraud Function developed a toolkit that included a range of measures that could be used to reduce the risk of fraud and error in these schemes. Where appropriate these tools were used by the Council when assessing each application and prior to payment.

While BEIS placed an emphasis on speed of payment the Council completed due diligence checks in accordance with the BEIS Counter Fraud toolkit. These checks were designed to reduce the risk of fraud and error in the grant schemes. BEIS also agreed to stand behind any erroneous grant payments subject to Local Authorities taking reasonable and practicable measures to minimise the risk of errors and/or fraud, avoid making payments to those not entitled and to take reasonable and practicable steps to recover any over-payments

Business Grants Paid April to September 2020

The total number of Small Business Grants, Retail, Leisure and Hospitality Grants and Discretionary Grants paid was:

| Total number of grants paid | 4,275 | £47,445,000 |
|---|-------|-------------|
| Discretionary Grants paid | 296 | £2,275,000 |
| Retail, Hospitality and Leisure Grants paid | 724 | £12,620,000 |
| Small Business Grants paid | 3,255 | £32,550,000 |

Following a series of post payments checks on the above 4,275 grants, invoices were raised to recover payment for ineligibility, as follows:

| Small Business Grants found to be ineligible and an invoice raised for recovery | 24 | £255,000 |
|--|----|----------|
| Retail, Hospitality and Leisure Grants found to be ineligible and an invoice raised for recovery | 4 | £100,000 |
| Discretionary Grants | 3 | £15,000 |
| Total grants where invoices were raised for recovery | 31 | £370,000 |

Of the above 31 invoices thirteen grants have been fully repaid and a further eight part repaid totalling a recovery of £175,000. Recovery action for the remaining invoices is continuing and further progress will be reported to future meetings of this committee.

Business Grants Paid October 2020 onwards

Since October 2020 BEIS introduced a series of additional local and national restrictions support grants designed to provide financial support to businesses and individuals affected by the ongoing Covid-19 measures. These grants were subject to similar due diligence checks to those applied to the previous rounds of grants and this process will remain a significant piece of work. As at the end of August 2021 the following grants had been awarded.

| Total number of grants paid (all types) | 10,539 | £31,505,000 | |
|---|--------|-------------|--|
|---|--------|-------------|--|

To assist with managing the grants awarded since October 2020 the Council has used third party software to manage the application, checking and award process.

Following a series of post payments checks on the above 10,539 grants paid, invoices were raised to recover payment for ineligibility, as follows:

| Total Local and National Restrictions Support Grants | 22 | £96,700 |
|--|----|---------|
| (all types) | | · |

Of the above 22 invoices four grants has been fully repaid and a further one part repaid totalling a recovery of £7,300. Recovery action for the remaining invoices is continuing and further progress will be reported to future meeting of this committee.

Reporting Potentially Fraudulent Grants

The Council will continue to complete pre and post payment checks for all grants awarded and take recovery action where necessary. Further action may also be required due to fraudulent activity. It is anticipated that BEIS will provide the Council with further advice and guidance on any recovery or legal action required to be taken.

Grants where an invoice has been raised to recover the payment, plus several other applications where a payment was not made but potential fraud was suspected, have been reported to the National Anti-Fraud Network (NAFN). BEIS has appointed NAFN to collate details of all potentially fraudulent activity in relation to the Covid-19 Business Grants. The information is to be used by Crime Agencies to identify potential criminal activity and organised crime.

National Fraud Initiative Exercise 2020/21

The Counter Fraud Unit co-ordinates the investigation of matches identified by the Cabinet Office's National Fraud Initiative (NFI) data matching exercises. Where matches are identified, the ensuing investigations may detect instances of fraud, over or underpayments, and other errors. A match does not automatically mean there is a fraud. Often there is another explanation for a data match that prompts bodies to update their records and to improve their systems. The NFI exercise also provides assurance to management that systems are working effectively where fraud and error is not present.

The latest NFI exercise commenced in January 2021 and a total of 10,016 matches have been released. Work is progressing to investigate the various categories of matches based on those deemed to be the highest risk. Over 1,100 matches have been processed. As further matches are processed details of the progress made will be brought before the Committee.

Counter Fraud Team - Tenancy Fraud

During the Covid-19 pandemic the Counter Fraud Team continued to provide a Tenancy Fraud Service. Potential fraud referrals have been recorded and investigated where possible. Due to the restrictions imposed by the lockdown and social distancing measures it has not always been possible to visit premises or to interview suspects. There is also a restriction on the ability to evict tenants from a property

As the Covid 19 restrictions are eased investigations into potential tenancy fraud are being progressed and the results will be reported to future meetings of this committee.

National Anti-Fraud Network Intelligence Notifications

The National Anti-Fraud Network (NAFN) issues regular alerts which provide information on fraud attempts, trends and emerging threats. The information provided in the alerts has been notified to NAFN by other local authorities from across the country. These alerts are checked to the Council's systems to verify whether there have been any instances at Wolverhampton. Alerts which either involve suppliers used by the Council or are applicable to all Councils, are notified to appropriate sections of the Council. The most common alerts relate to Covid-19 Business Rates Relief Grant

frauds, Bank Mandate fraud, Council Tax Refund fraud, cyber fraud including ransomware and email interception.

Midland Fraud Group

This group consists of fraud officers from across the Midland's local authorities. The purpose of the group is to identify and discuss the outcome of initiatives being used to tackle fraud. At the last meeting in July 2021 discussions were held on:

- Post verification of Covid-19 grants
- Right to Buy applications
- Business Prosecutions and;
- Other cases of interest.
