The Leader of the Council, Councillor Ian Brookfield present the report on Capital Programme 2021-2022 to 2025-2026 Quarter Two Review for approval. The report provided Council with an update on the 2021-2022 financial performance of the General Revenue Account and Housing Revenue Account (HRA) capital programmes whilst also providing a revised forecast for 2021-2022 to 2025-2026 as at quarter two of 2021-2022.

The Leader of the Council, Councillor Ian Brookfield recommended revisions to the current approved capital programmes covering the period 2021-2022 to 2025-2026. He outlined the changes to the capital programme and the rationale for the change.

The Leader of the Council, Councillor Ian Brookfield proposed the recommendation and Councillor Stephen Simkins seconded the recommendation.

Resolved:

That the revised, medium term General Revenue Account capital programme of £298.1 million, an increase of £6.7 million from the previously approved programme, and the change in associated resources be approved.

7 Treasury Management Activity Monitoring - Mid Year Review 2021-2022

The Leader of the Council, Councillor Ian Brookfield presented the report on Treasury Management Activity Monitoring - Mid Year Review 2021-2022 for approval. The report provided Council with a monitoring and progress report on treasury management activity for the second quarter of 2021-2022 as part of the mid-year review, in line with the Prudential Indicators approved by Council in March 2021.

The Leader of the Council, Councillor Ian Brookfield noted that the Council had not undertaken any new borrowing in the last two financial years.

The Leader of the Council, Councillor Ian Brookfield proposed the recommendations and Councillor Stephen Simkins seconded the recommendations.

The report was debated by Council.

Resolved:

1. That it be noted that a mid-year review of the Treasury Management Strategy Statement had been undertaken and the Council had operated within the limits and requirements approved in March 2021, however due to the reprofiling of some capital programmes the authorised limit and operational boundary for commercial activities for 2022-2023 is forecast to be slightly in excess of the best estimate included in the Treasury Management Strategy presented to Council on 3 March 2021. This would be reviewed as part of the 2022-2023 Treasury Management Strategy.
2. That it be noted, the revenue underspends of £899,000 for the General Revenue Account and £706,000 for the Housing Revenue Account (HRA) were forecast from treasury management activities in 2021-2022, arising as a result of rephasing of the capital programme and lower interest rates forecast on borrowing.

9 Motions on Notice

The Leader of the Council, Councillor Ian Brookfield moved the following motion:

“That this Council notes that the government plans to replace European Union ‘structural funds’ with a new UK Shared Prosperity Fund (UKSPF), due to launch in April 2022. Indeed, in their 2019 general election manifesto, the Conservatives promised that their ‘new’ UKSPF would “at a minimum” match the level of EU spending in each of the four nations of the UK.

Prior to the introduction of the UKSPF, the government’s UK Community Renewal Fund (CRF) aims to support communities to pilot programmes and new approaches.

However, the early indications are that areas in need are not receiving the allocation they need from the CRF or that they reflect previous allocations of EU funding. On the contrary, wealthier, non-priority areas are getting relatively more. For example, a Priority 2 area like Coventry received more than some Priority 1 areas like Birmingham and Dudley.

The fact that areas like Devon are receiving more CRF funding (£9.3million) than the West Midlands (£5.3 million), not reflecting current EU allocations in those areas, raises serious questions about the government’s attempts at levelling up and the methodology they are using to allocate funds.

This Council, therefore, is instructed to use all available avenues to lobby the government to ensure it is fair, consistent and equitable in its approach in distributing UKSPF monies, now and in the future to reflect EU allocations, ensuring the areas with the greatest needs receive their fair share.”

The Leader of the Council, Councillor Ian Brookfield outlined the rationale for the motion. Councillor Stephen Simkins seconded the motion.

Councillor Ellis Turrell moved the following amended motion:

After paragraph one, delete paragraphs two to five and insert:

This Council welcomes that the new UK Shared Prosperity Fund will remove much of the inefficiency associated with the previous EU funds, which was described in Parliament by the cross-party Work and Pensions Select Committee as being “mired in inordinate bureaucracy”.

Prior to the introduction of the UKSPF, the government’s UK Community Renewal Fund (CRF) aims to support communities to pilot programmes and new approaches.
